Preparatory Procedure

Before Pancha Karma, the toxic elements in the body are loosened and made ready to be removed using the following therapies

1. Snehana Karma (Oleation Therapy)

In this procedure oil and ghee preparations are used externally and internally. The different procedures include

- Snehapanam
- Abhyangam
- Sirovasthy
- Sirodhara
- Pizhichil etc.

2. Swedana Karma (Sudation Therapy)

Done in association with Snehana Karma, the various therapies coming under Swedana Karma include:

- Njavarakizhi
- Pizhichil
- Elakizhi
- Chooranasweda
- Steam Bath
- Hot Herbal Bath etc.

Shamana Chikitsa

This therapy is done after Sodhana Chikitsa and involves the usage of herbal medicines, both externally and internally and thus restoring normality without elimination.

Agnivesa, under the guidance of the ancient physician Atreya, had written an encyclopedic treatise in the 6th century B.C. However, it was only when Charaka revised this treatise that it gained popularity and came to be known as Charaka Samhita. For two millennia it remained a standard work on the subject and was translated into many foreign languages, including Arabic and Latin.

Gayathri, B.Sc CN and D 1st year

Kumārāsambhava describes the birth of skanda, the warrior god. The life of Siva and Parvati is to serve as an ideal for the mortals. Ascetism, devotism, sublimity – all these are symbolised in this couple and it is but natural that the offspring of such a union should save the universe from catastrophe of a demon rule. The whole theme of marriage of Siva and Parvati but they could not go further, for their static nature of their representation obviously prevented them from doing so, kālidāsa with his genius, boldly attempted to deal with this theme, the experience of all experience. In Kumārāsambhava and Raghuvamśā, kālidāsa may be said to have found himself and mastered expression.

In the Meghadūta he is both extremely personal as well as convincingly objective. By a superb analytical process he has carried out a very clear separation of his personality into two of its fundamental aspects, his natural earthly self and soaring imaginative self, that is the yaksha (super natural being) and the cloud respectively. The greatness as well as the uniqueness of the Meghadūta is to be seen in the fact that it has been frequently imitated but never been equalled. Nature is seen more minutely. This is also a poem which speaks the unique beauty of nature. Every line, every incident and every thought has something unique, some rare excellence about it.

Under remarks "It is delightful to imagine a meeting between kālidāsa and darwin. They would have understood each other perfectly for in each the same kind of imagination worked with the same wealth of observed fact" this shows kālidāsa's greatness.

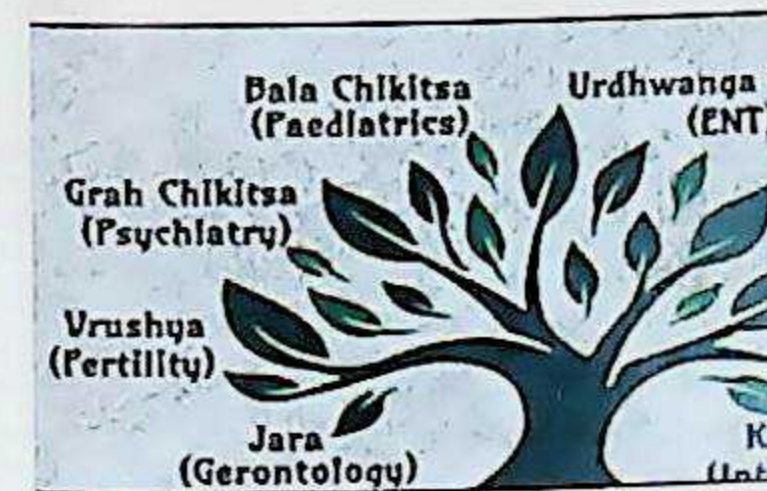

poetry, other motives like worship of the ideal deity and praise of the patrons with a view to guiding the contemporary life also have their effects on their image no doubt, but ultimately what we have are the creations of philosophy, aesthetics and life all mixed together. A perfect fusion of all these three elements makes literature great and this is true of Kumārāsambhava, Raghuvamśā, Meghadūta and it is for the very reason that these works are unique in the whole range of Sanskrit literature. Only a kālidāsa could write these and none else.

AYURVEDA

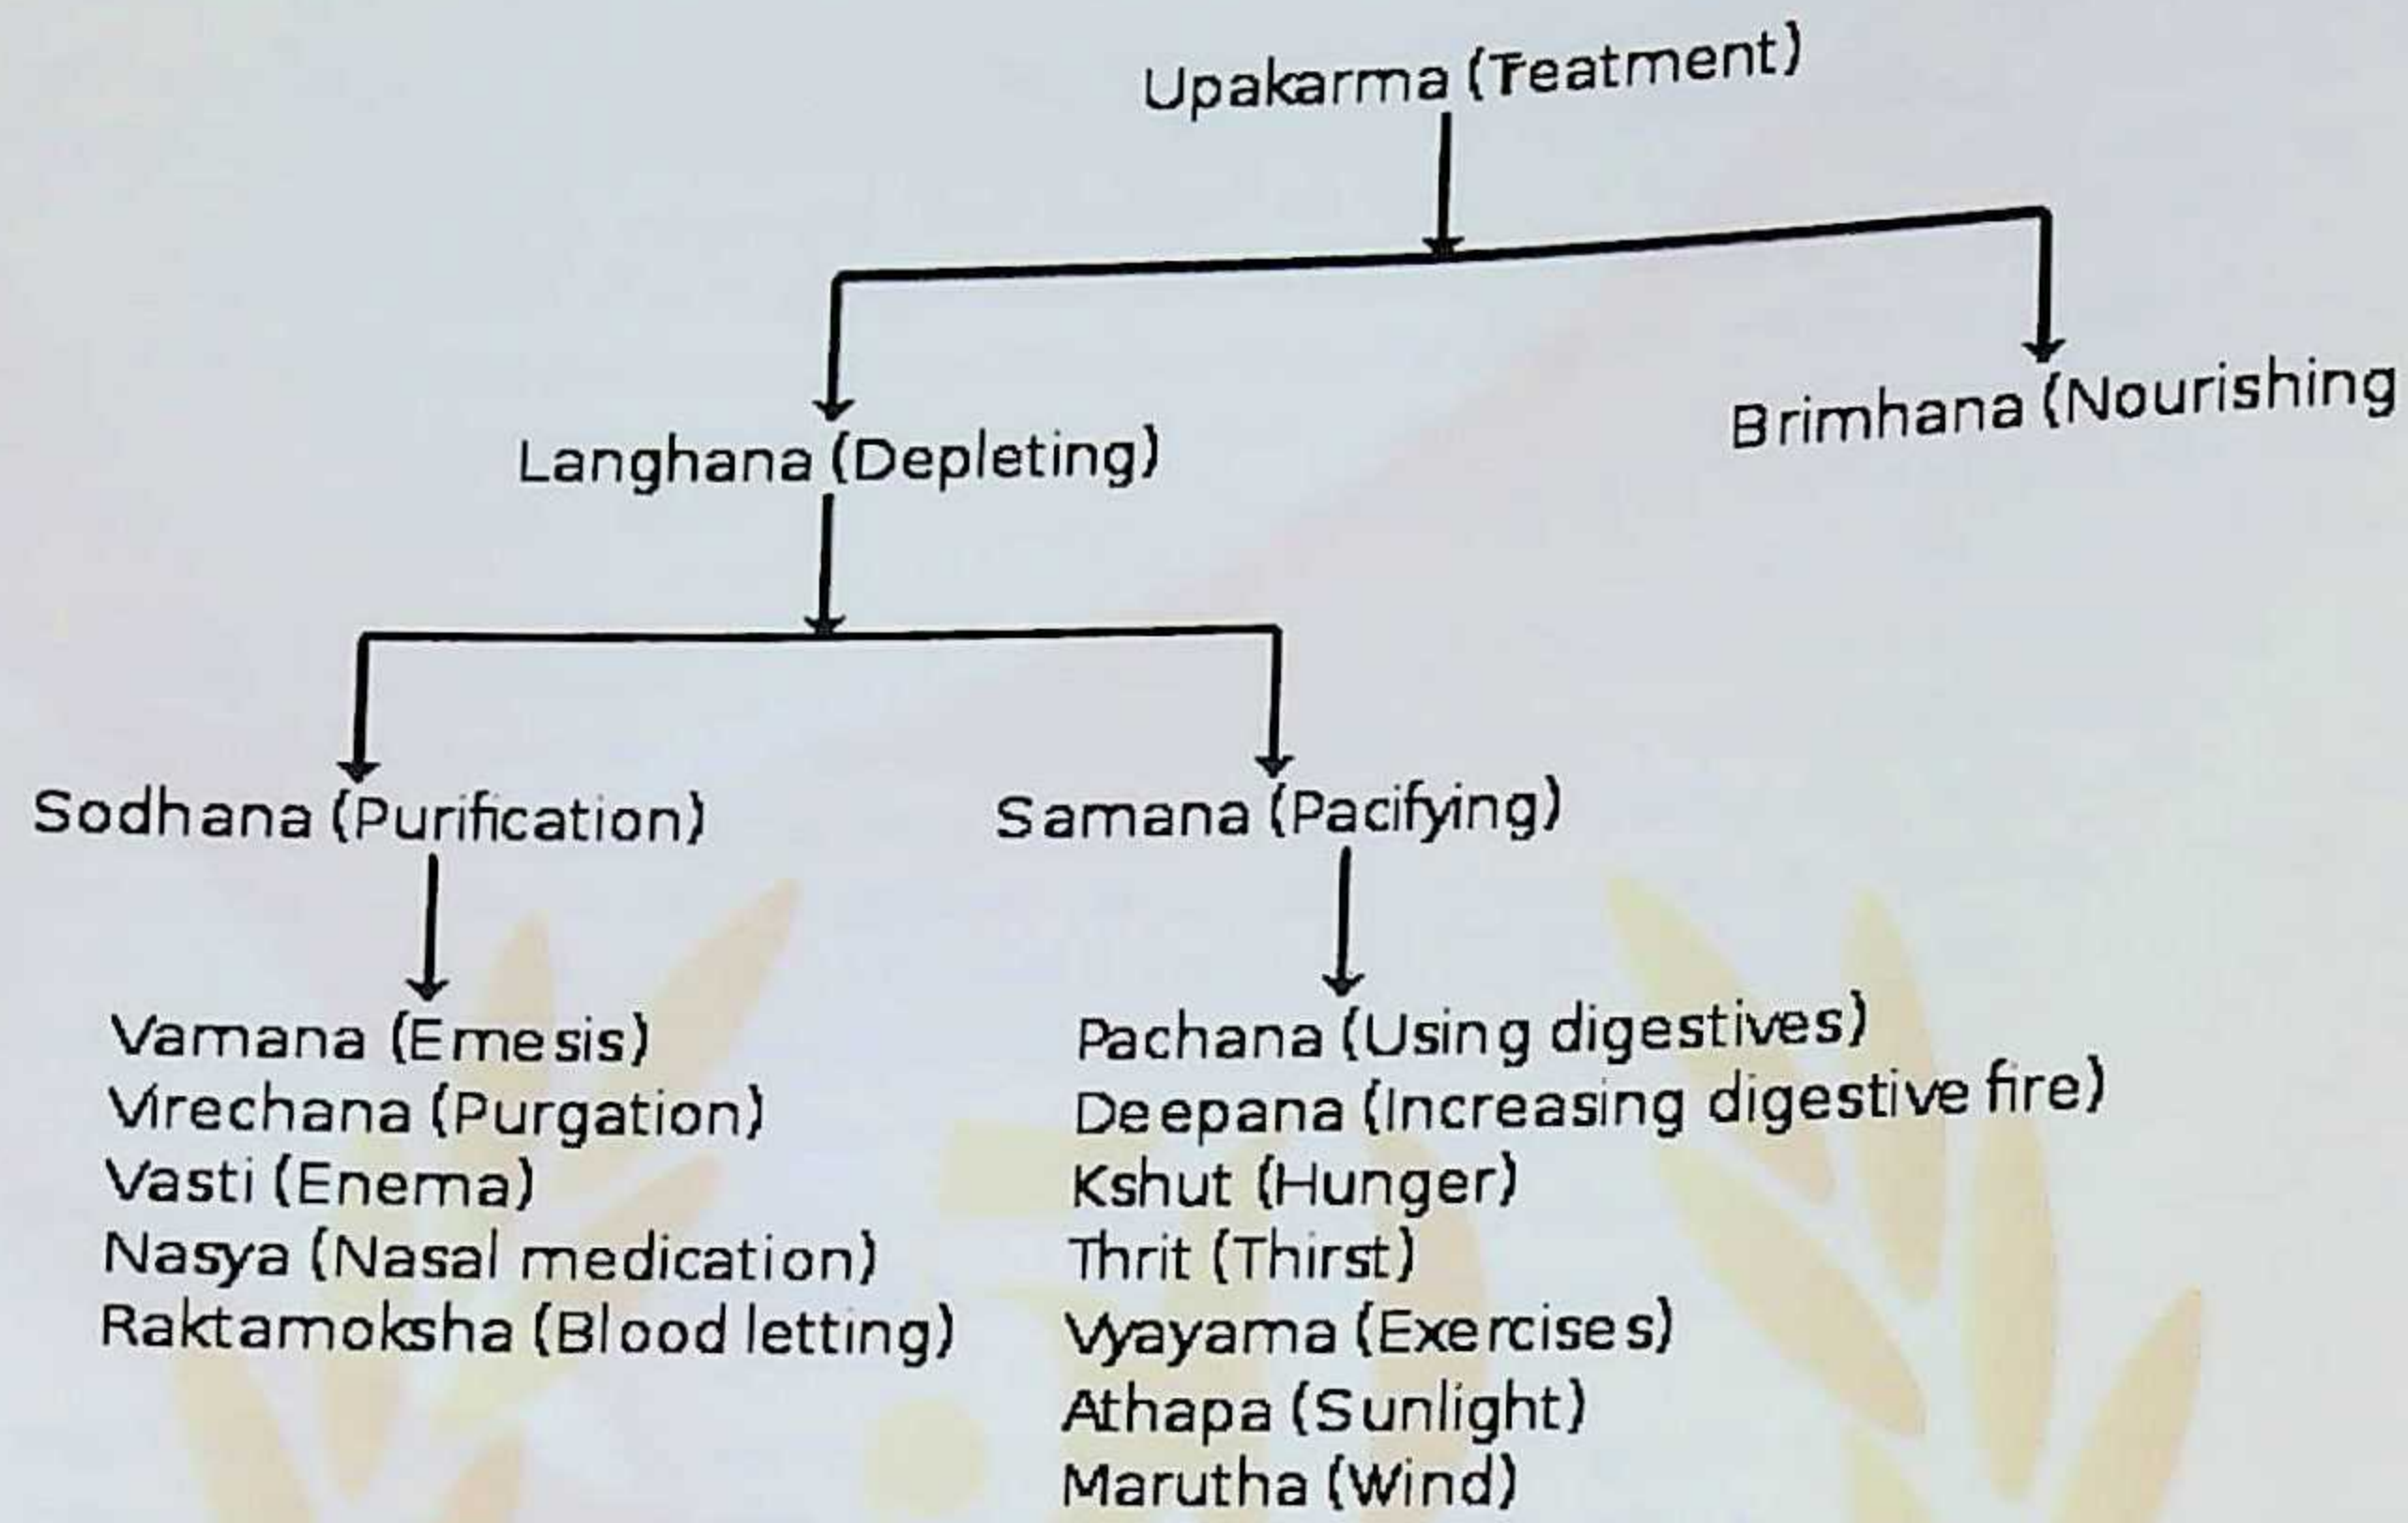

Ayurveda is a 5,000-year-old system of natural healing that has its origins in the Vedic culture of India. Although suppressed during years of foreign occupation, Ayurveda has been enjoying a major resurgence in both its native land and throughout the world. Tibetan medicine and Traditional Chinese Medicine both have their roots in Ayurveda. Early Greek medicine also embraced many concepts originally described in the classical Ayurvedic medical texts dating back several thousands of years. More than a mere system of treating illness, Ayurveda is a science of life (Ayur = life, Veda = science or knowledge). It offers a body of wisdom designed to help people stay vital while realizing their full human potential. Providing guidelines on ideal daily and seasonal routines, diet, behavior and the proper use of our senses, Ayurveda reminds us that health is the balanced and dynamic integration between our environment, body, mind, and spirit.

RANCHES OF AYURVEDA

DIAGNOSIS

Ayurveda has eight ways to diagnose illness, called Nadi (pulse), Mootra (urine), Mala (stool), Jihva (tongue), Nabha (speech), Sparsha (touch), Druk (vision), and Aakruti (appearance). [41] Ayurvedic practitioners approach diagnosis by using the five senses. For example, hearing is used to observe the condition of breathing and speech. The study of the lethal points or marmanmarma is of special importance.

TREATMENT

Ayurvedic treatment can be broadly classified into two:

SodhanaChikilsa (Purification Therapy)

ShamanaChikilsa (Alleviating Therapy)

Also diseases can be diagnosed in either eight steps or ten steps

Sodhana ChikilsaX

SodhanaChikilsa involves the removal of toxic by products formed in the body through various therapeutic procedures. By undergoing the five procedures involved in the therapy, known as Pancha Karma, the normal tone is brought back to the system and a balance is attained.

1. Vamana (Emesis Therapy)

Internal medicines are administered to induce vomiting

2. Virechana (Purgation Therapy)

Internal medicines are administered to induce purgation

3. Nasyam (Nasal Medication)

Herbal Medicines in the form of oil or powder is administered through the nostril

4. Vasthy (Medicated enema therapy)

Herbal medicines in the form of decoction or oil is administered through anus.

5. Rakthamoksham (Blood letting therapy)

Impure blood is drained out of the body through needle-pricking, venesection, leaching etc.

THE COLLEGE CREST

The College Crest is enshrined within a lotus in full bloom to represent the cult of the devotion preached by Mahaprabhu Shri Vallabhacharya. At the centre of the Crest is a sacrificial fire, which symbolizes the Lord himself "Yagna Vai Vishnu". The Lord is reached by the three steps of the altar signifying KSHARA, AKSHARA AND POORNA PURUSHOTHAMA. The Volume at the foot of the altar stands for the Book of knowledge (the vedas) and the three flowers show the factors that conduce to the accumulation and propagation of knowledge, intelligence, action and material resources. The aim of Knowledge is the realization of the Supreme Truth and this is embodied in the College motto taken from Srimad Bhagavatam.

'SATYAM PARAM DHEEMAHI'

"Let the truth uphold supreme in my consciousness (or)
truth and the transcendental divinity uphold
my awareness."

FROM PRINCIPAL'S DESK

Dr. (Mrs.) R. GEETHA

Dear Students,

Imparting quality education to young women has been resonated by our college for fifty years. Our empowered students are leaving indelible marks in various eminent fields of excellence, with their power of determination, hard work, confidence and will power. For years our students perform winning roles to empower underprivileged and embolden society to the path of development. In future, our college students dynamically march forward to ensemble the global -pinnacle of glory.

This golden jubilee college magazine has annual academic and nonacademic achievements and created a platform to unleash students' creativity

All the best.

EDITORIAL MESSAGE

This year's college magazine marks the golden Jubilee year that envisages the fortitude of the reigning glory and all-inclusiveness of our college annual events. This is chronically documented to comprehend the vicissitudes of varied establishments in the college. Fifty years of yeomen service in an uninterrupted and unchallenged way showcases the mark of triumph in women education. The journey of success has the sacrificial-contributions of many and we traverse to carry the legacy of our college forever.

Good Luck.

பொன்விழா ஆண்டு

ஆண்டு 1968-ல் ஸ்ரீ நானாலால் பட் அவர்கள் தனது இல்லாள் ஸ்ரீமதி தேவகுன்வர் பெயரால் பெண் கல்விக்கென துவங்கிய மகளிர் வைணவக் கல்லூரிக்கு இது பொன்விழா ஆண்டு!

அன்று விதைத்த விதை செடியாகி மரமாகி விருட்சமாய் இன்று பரந்து விரிந்து அகலமாய் நிழல் பரப்பி, ஆழமாய் வேறுன்றி உயர்ந்து நிற்கிறது.

இதன் கிளைகளில் வந்தமர்ந்து அறிவுக் கனி சுவைத்து பட்டச் சிறகடித்து திசை எட்டும் பறந்து சென்று சிறப்புற வாழும் மாணவிகள் ஏராளம்!

சென்னை புறநகரில் காஞ்சி மாவட்டத்தில் கிராமபுற மாணவிகளுக்குக் கல்வி கலங்கரை விளக்காய் ஒளி வீசி வழிகாட்டியாய் இக்கல்லூரி விளங்குகிறது! அதிக அளவில் முதல் பட்டதாரி பெண்களை உருவாக்கிய பெருமையும், அருமையும் கொண்டது.

கடந்து வந்த பாதை!

1968-ல் பல்கலைக் கழக புதுமுக வகுப்போடு தொடங்கி

1969-ல் முதல் இளங்கலை வகுப்புகளும்

1970-ல் இளம் அறிவியல் வகுப்புகளும்

1976-ல் வணிகவியல் பட்டப்படிப்பும்

தொடர்ந்து 1984-ல் அரசு உதவிபெறும் வகுப்புகளுடன் - சுயநிதி வகுப்புகளும் தொடங்கப்பெற்று சிறப்புற நடைபெற 2001-ல் முதுநிலை வகுப்புகளும் தொடங்கப்பட்டன.

தற்போது 23-இளநிலை வகுப்புகளும், 11 - முதுநிலை பட்ட மேற்படிப்பு வகுப்புகளும், ஆராய்ச்சி படிப்புகளும், மேலும் தொடர் சிறப்புற நடைபெற்று வருகின்றன.

பாடப்பிரிவுகளின் எண்ணிக்கை அதிகரிக்க அதற்கு ஏற்றாற்போல் உள்கட்டமைப்பு வசதிகளும் சீரான வளர்ச்சி பெற்று வருகின்றது.

வசதிமிக்க வகுப்பறைகள், ஆய்வுக்கூடங்கள்..... விழாக்கள் நடத்த விசாலமான நவீன அரங்கம், வளாகத்தின் உள்ளேயே மாணவியருக்கான தங்கும் விடுதி, உள் விளையாட்டு அரங்கம், நூலகம் என உள்கட்டமைப்பிலும் சிறப்புற விளங்குகிறது இக்கல்லூரி.

கல்வியுடன் ஒழுக்கமும், உயர்ந்த நற்பண்புகளும் ஊட்டி வளர்க்கும் கல்லூரி இது.

பட்டதாரிகளை மட்டுமல்ல, பல விளையாட்டு வீராங்கனைகளையும் பயிற்சியால் உருவாக்கி பெருமை கொள்கிறது இக்கல்லூரி.

நாட்டு நலப்பணித் திட்டத்தின் மூலம் விவேகத்தையும், தேசிய பாதுகாப்புப்படை பயிற்சியின் மூலம் வீரத்தையும் மாணவியருக்கு வழங்குகிறது.

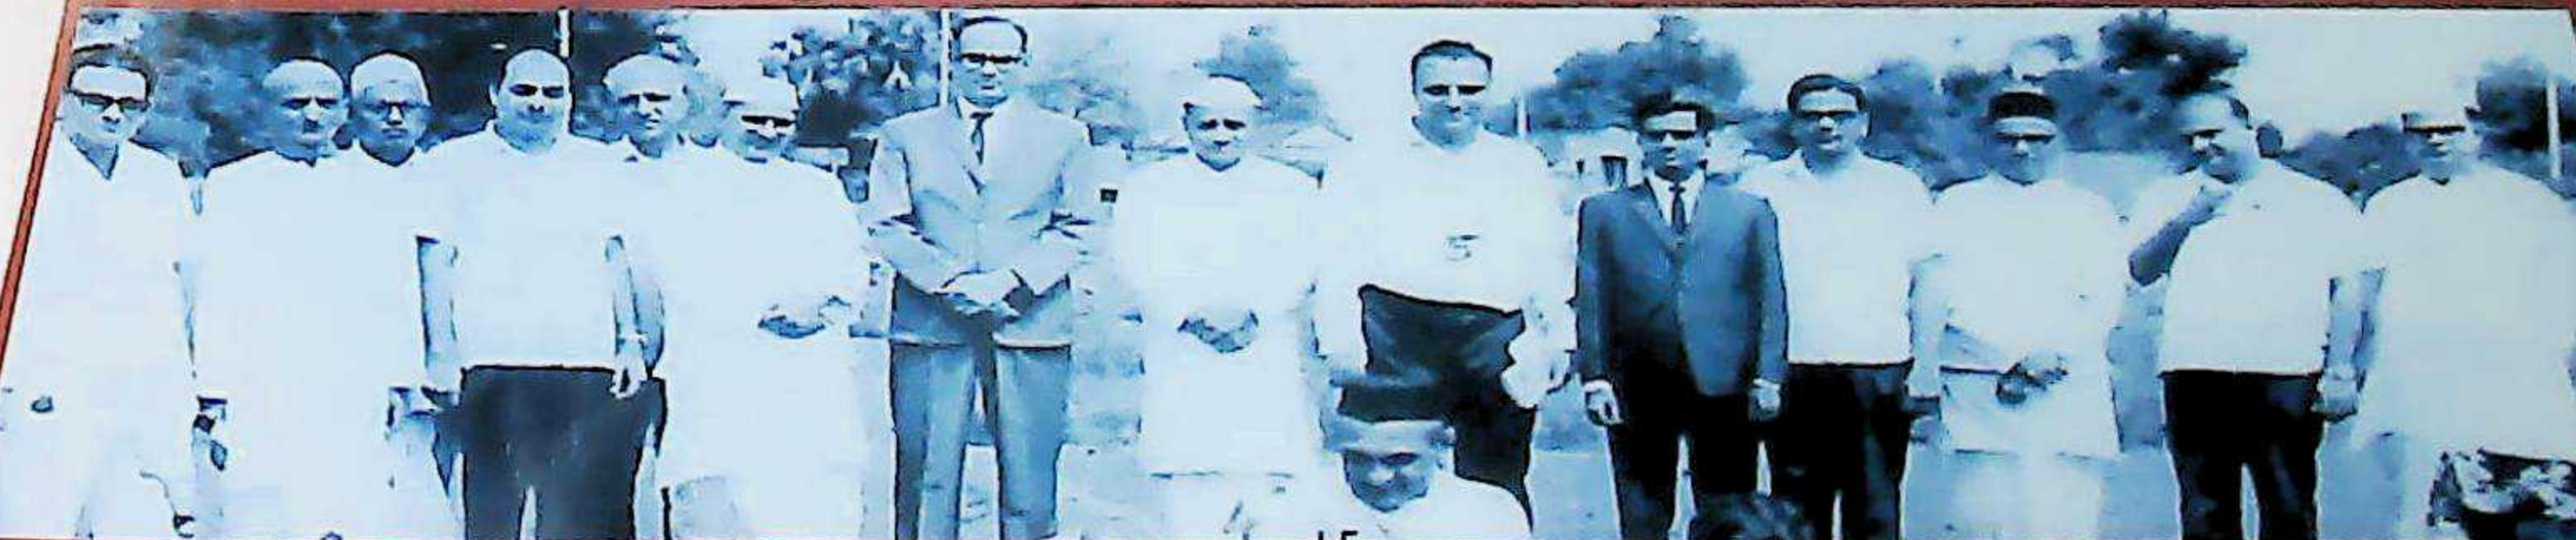

கல்லூரியில் நடத்தப்பெறும் வேலைவாய்ப்பு முகாம்கள் மூலம் வேலைவாய்ப்பளித்து மாணவிகளின் வருங்காலம் வளமாய் அமைய வழிவகை செய்கிறது.

ஆற்றல் மிக்க நிர்வாகம், அன்போடு அறிவைப் போதிக்கும் ஆசிரியர் பெருமக்கள், அவர்களுக்கு உடனிருந்து பணியாற்றும் ஆசிரியர் அல்லா பணியாளர்கள் என அனைத்தும் ஒருங்கே பெற்றுச் சிறப்புறத் திகழ்கிறது இக்கல்லூரி.

2006 - முதல் தன்னாட்சி அந்தஸ்து பெற்று தேசிய மதிப்பீடு மற்றும் தரச்சான்று அளவையால் A+ - பெற்று புகழுயர் விளங்கும் கல்லூரி !

மொத்தத்தில் அகவை ஐம்பது காணும் வைணவ மகளிர் கல்லூரியே

- கல்வி வரமளிக்கும் கலைமகளும் நீ !
- வேலை வாய்ப்பளித்து செல்வ வளமளிக்கும் அலைமகளும் நீ !
- உடற்கல்வி, தேசிய பாதுகாப்புப் படை மூலம் வீரம் வளர்க்கும் மலைமகளும் நீ !

I am extremely happy to visit the Vaishnav College for Women, Chennai. I am immensely pleased to see the fine working of the College in lovely environment. This College has become a useful educational institution for the uplift of women which has been possible due to magnificent donation by Thiru. Kunalal Bhatt of 10 acres of land and 3 lakhs of rupees. I appreciate the generous donation for a useful purpose and wish the institution all success.

INAUGURATION OF AIR-CONDITIONED MAIN AUDITORIUM

BY HIS EXCELLENCY HON'BLE GOVERNOR OF TAMILNADU THIRU. BANWARILAL PUROHIT

COLLEGE DAY REPORT 2018-19

Honourable Chief Guest of the Golden Jubilee College Day, Dr. Jeyashree Menon Kurup, UGC Nominee of our College & former Regional Director IGNOU, Respected Secretary Shri. Chandrakant M Tolia, Esteemed Chairman Smt. Mamta D. Bhatt, Distinguished Members of the Management Committee, Respected Guests off the dais, Faculty and Students of our college! A very Good Evening.

“SATYAM PARAM DHIMAHI IS THE MOTTO OF OUR ESTEEMED INSTITUTION. TRUE TO THIS - LET TRUTH AND DIVINITY DAWN IN OUR INTELLECT AND IN OUR CONSCIOUSNESS.”

Genesis

Shrimathi Devkunvar Nanalal Bhatt Vaishnav College for Women, Chennai, is an Aided Autonomous College, affiliated to the University of Madras, which was started in 1968 by Cork Industries Charities Trust and the College has rendered five decades of exemplary service for the betterment of women and society.

VISION

- ❖ The Vision of the college is to acquire reputation for excellence, inclusiveness and committed service to the community.
- Empowering young women to be intellectually competent morally upright socially committed and spiritually inspired.

Management Committee

The success of our journey in women's education has been shaped by the visionary leadership of our College Management Committee which is spear-headed by our Honourable Secretary Shri. Chandrakant M. Tolia, whose deep involvement in every aspect of the functioning of the institution with zest, wisdom & courage, has inspired every member of the Vaishnav family. The valuable contribution of our revered Chairman Smt. Mamta D. Bhatt, known for her zeal & everlasting enthusiasm, has paved the way for vibrancy in the institution. Our esteemed Joint Secretary Shri Nimish C Tolia, whose innovativeness, dynamism & vision for creating benchmarks in all spheres of the College has provided a great impetus in shaping the institution for attaining Excellence.

Pillars of Vaishnav

The institution is greatly indebted to all our former Principals' especially Dr Thangam Seshan,

Ms T.V.Jayalakshmi, Dr.T.Sumithra, Dr.G.Rani and Dr.V.Varalakshmi, whose dedicated and untiring efforts during their tenures have contributed immensely for the growth of the institution to its present stature.

Academic Advisory Board

The fast paced innovations in the recent years leading to creation of disruptive technologies is bound to create a wide gap between the industry requirements and academia, which has necessitated the formation of an Academic Advisory Board to provide deep insight into the curriculum & dynamic updation in each domain for bridging this gap. The meetings for Basic Sciences, Commerce and Computer Science were held in August 2018.

Academic Bodies

As mandated by the UGC, the College has several academic bodies such as the Governing Body, Academic Council, Board of Studies & IQAC for effective functioning of the institution. UGC Nodal Officer submits the NIRF & AISHE Data to MRD & UGC annually.

Journey of Vaishnav

As the Institution has stepped into its Golden Jubilee year in July 2018, it is envisioned to become a College with Potential for Excellence by creating a Unique Brand Image for itself and offer Collaborative programs with Institutions of Academic excellence. The efforts of the college through the years has led to the conferment of Autonomous Status since 2006 by UGC. In January 2017, the College was re-accredited with 'A+' grade by NAAC in the third cycle with a CGPA of 3.52 and recently the proposal for Grant of Extension of Autonomous status has been submitted to UGC & University of Madras.

Courses Offered

The Institution has grown from its humble beginnings to its current stature as a Research Institute offering 6 fulltime & 10 Part time Ph.D. Programs apart from 23 undergraduate, 13 Postgraduate and 5 M.Phil. programs in both Aided and Self-Support streams encompassing Arts & Humanities, Mathematical Sciences, Basic Sciences, Commerce, Media Sciences & New Age Sciences. The College currently caters to the needs of 6054 students with 35% in the aided and 65%

in the self-supporting structure. During the current academic year M.Com. (Accounting & Finance), M.Sc. (Home Science- Food Science, Nutrition & Dietetics), M.Phil. (Computer Science) & B.Com. (Banking & Insurance Management) have been introduced. Approval from University of Madras is awaited for B.Com. (Professional Accounting), M.Com. (Corporate Secretaryship) & B.Sc. (Psychology)

Infrastructure and Learning Resources

The Lush Green College Campus is spread over 10 acres with state of art infrastructure facilities like smart classrooms equipped with interactive boards, 12 computer labs with latest Operating System & software like IBM-SPSS AMOS, MATLAB, ADOBE Creative Cloud & Office 365 Cloud, Excellent Cookery Labs & Instrumentation Lab with High-End equipments. Fully computerized Libraries for UG & PG has a total of 46,129 Books and 200 Journals.

Indoor Stadium with badminton & table tennis, a huge playground for athletics, cricket, Kho Kho, Basket ball & volleyball are also available.

Honourable Governor of Tamil Nadu Shri Banwarilal Purohit inaugurated the newly renovated air conditioned Auditorium with a seating capacity of 1000. Bhoomi Pooja was performed in October 2018 for Golden Jubilee Block which will house a spacious Modern Library with study cubicles for Research scholars, Office of Controller of Examinations, State of art lecture cum seminar halls and basement parking facility.

Rain water harvesting system & Solar power panels for augmenting power requirements are some the measures undertaken for self-sustenance.

Teaching, Learning and Evaluation

Apart from Choice Based Credits System offered by all programmes along with wide use of ICT tools for effective teaching-learning experience, UG students are offered Skill Based Electives & also take-up Computing Skills – a Self learning Component using Spoken tutorials of IIT Mumbai for credits, to enhance their skills in their Domain of study.

During this academic year Research skills & Teaching Skills have been introduced as soft skill component for Post Graduate students for mandatory credits to prepare them for a career ahead. PG Students enrol for ONLINE MOOC offered on SWAYAM Platform

recognised by UGC as NME and upon certification are given ADD-ON credits apart from mandatory credits. As part of Teaching Skills lectures are delivered by PG students to the UG students which are evaluated. More than 250 Students have been certified in NPTEL courses. Learning Management System – MOODLE & KAHOOT is also being used for Online MCQ tests by the departments.

The overall demand ratio for the courses offered by the College is impressive and a reasonable student teacher ratio is ensured. The digital Repository DSpace has valuable e-learning resources like NPTEL & MOOC study material, access to which is provided through the INTRANET on the Campus.

The office of the Controller of Examinations has been the Hub of innovation in our campus as it has an enormous task of conducting examinations and declaring results on time, for the diverse programs and increasing students' strength. Several reforms have been carried out continuously to improve systems and functioning of the COE by integrating new modules in our indigenously built College information System. Some of the processes reformed are: Online submission of Examination Application forms & Printing of Hall Tickets by Students, Issue of Transcripts by the College as a number of students are pursuing Higher education abroad, Online Certificate and Diploma verification, Examination Process simplified by complete online mapping of student database with examination schedule & seating capacity in examination hall.

Research

Research intertwined with teaching is a practice at Vaishnav & recognition of some of the departments as research departments has given an impetus to research activity on campus. I am very proud to announce that totally EIGHT Ph.D.'s have been awarded this academic year: 1 from Faculty of Statistics under the Guidance of Dr. R.Geetha, under faculty of Commerce – 2 each under the guidance of Dr. R. Savithri & Dr. D. Dhanalaxmi, one each under the supervision of Dr. S. Rathi & Dr. N. Rama & one from the faculty Computer Science by Dr. C.P. Sumathi. Currently 49 scholars are pursuing research towards Ph.D. under the guidance of 22 supervisors from various disciplines. One UGC Major Project was Completed & one UGC Minor project is ongoing this year.

Our Faculty have been actively publishing research articles & participating in Conferences/Seminars/Symposia of the College:

Level	FACULTY			
	Publications	Paper Presentations	Resource Person	Participation in Workshops / FDPs
International	35	28	3	15
National	4	9	6	72

Our Ph.D., M.Phil. Scholars & PG students have also been very active on research front and 15 students have received best paper awards in various forums.

- Research Department of Commerce in collaboration with Andhra Chamber of Commerce organised a National Seminar on Emerging Trends in Insurance Sector on 6th March 2019.
- PG Department of Human Resource Management conducted the International Conference on Energizing Leadership: leading Business through Passion for people was held on 13th March 2019.
- International conference on "Vainavathil Melanmai Sinthanaigal" on 22nd March.

Sports & Extension Activities

Sports have been an integral part of curriculum at Vaishnav and the generous support of our Management for promoting sports activities by way of free accommodation and fee waivers has brought several laurels. This year we have 24 interzone, 11 state, 1 university, 11 National and 1 international player who have won 3 Gold, 5 silver and 3 bronze at State level; 3 Gold and 4 silver at National level; and 1 bronze at international level.

In consonance with the Golden Jubilee Celebrations Intercollegiate sports tournament in Chess, Table tennis, Basketball and Badminton were held in Indoor stadium on Feb 7 and 8. The intercollegiate athletic meet and our college Annual sports meet was held at the Nehru Stadium on 13th and 14th February 2019. Over 25 colleges took part in a plethora of track & field events! Mr. Mahesh Aggarwal, IPS, Assistant commissioner of police, Law and Order, South presided over the inauguration and declared the athletic meet open. In his inaugural address he stressed the significance of women power and praised the students for their wonderful NCC drill, aerobic, and Silambam performance. The Valedictory was presided over by our prestigious Alumni Aarthie Ramaswamy, Woman Grandmaster. A grand ceremonial march past by all departments, a graceful aerobic dance and prize

distribution marked the finale of the event. The overall Championship was won by MOP Vaishnav College and second place was won by SDNB VAISHNAV COLLEGE

The NSS, YRC & Rotaract unit comprising of 1425 dedicated volunteers conduct Awareness programs on environmental issues, Swachch Bharat Abhiyan, "To Refuse, Reduce, Reuse and Recycle Plastics", gender sensitization programs & engage in community service activities. Our College Rotaract Club was awarded "best supporting college based club" by the District Rotaract Club this year.

The Air Wing & Naval Wing cadets of NCC actively participate in "All India Annual Training Camps", "National Integration Camps" and "Republic Day camps" at state & National level annually. Our Cadets continue to excel in several adventurous competitions and bag laurels for the Institution.

Student Support & Progression

The student support system has been strengthened with the mobilization of scholarships from several Private Endowment Award Scholarships, Central & State government. I am happy to inform this gathering that last year a total of Rs 60,94,843 was disbursed to 1290 beneficiaries Scholarships Disbursed. This academic year scholarships through Private Bodies was given to 366 for Rs. 38,82,750/- and by Alumni Trust - Rs.2,43,025/- to 23 Students. பாரதி தமிழ்ப் பேரவையில் முதல் பரிசு பெற்ற கவிதை மனிதா நீ மனிதன் தானா?

புகைப்பிடிக்க நீளும் கரங்கள்
புகைப்படம் எடுக்க நீளும் கரங்கள்!
புண்பட்ட நெஞ்சை ஆற்ற நீளவில்லை!
வில்லைபேசி விற்கின்றாய் உன் தந்தையை
முதியோர் இல்லத்தில்தில்!!
மனிதா நீ மனிதன் தானா
உன்னையே கேட்டுப்பார்! உரக்கச்
சொல்லும் ஒரு குரல்
நீ மனிதன் அல்ல! மடமையால் மக்கிய
முடன் என்று!
மாதாவை மதிக்காத நீ!
பிதாவை வசைக்கும் நீ!
குருவை கேலியாக்கும் நீ! மனிதன் தானோ!
புறம் பேசுகிறாய்! பின் நின்று
நன்பணையே நசுக்குகிறாய்!
உன் நாக்கில் நிற்கும் சொற்கள்
நால்வரின் செவி அடைக்கச் செய்கிறதே!
நாகரிகம் இது தானோ!
விவசாயி வயிற்றலடிக்கும் விஷமிகளே!

வஞ்சக ஊழல் புரியும் உத்தமர்களே!
கூலிக்காக கொலை செய்தவனே குடும்பம்
மறந்து போனவனே! நீ மனிதன் தானா!
ஆம் நீ மனிதன் தான்! ஆற்றிவு உனக்கு
அதனால் மட்டும் தான் மனிதனோ!
கொள்ளை வழிப்பறி என பல
விந்தை கற்றவன் நீ!
பாலியல் வன்கொடுமை செய்யும்
பாவ ஜென்மம் நீ!
அதனால் தான் நீ மனிதனோ!
மா மனிதனோ?

பாரதி தமிழ்ப் பேரவையில் முதல் பரிசு பெற்றக் கட்டுரை தூய்மை இந்தியா

முன்னுரை

இந்தியர் அனைவருக்கும் நம் நாடு மிகவும் மகிழ்ச்சியுடன் இருக்க வேண்டும் என்ற எண்ணம் வர வேண்டும். ஒவ்வொருவரும் நம் நாட்டை நேசித்துச் செயல் பட செய்ய வேண்டும்.

"இந்தியர்கள் நம் உடன் பிறந்த சகோதரர்கள்" என்ற உறுதி மொழியோடு இருத்தல் வேண்டும். இக்கட்டுரையில் கூறப்படும் வரிகள் இந்தியர்களாக சொல்லப்படும் கருத்துகள். நம் நாட்டு பெரியோர்கள் எப்போதுமே நம் நாட்டை விட்டுக்கொடுக்கக் கூடாது.

தூய்மை இந்தியாவாக மாற்றும் திட்டம்:

நம் நாட்டை நாம் தூய்மையாக மாற்றும் திட்டத்தைக் பல்வேறு மாநிலங்கள் இதனை மேற் கொண்டுருக்கின்றன. இத்தகைய நிலைமையைக் கொண்டுவந்த நம் முதல்வருக்கு நன்றிகள் கூறவேண்டும். 1976 இல் நம் நாட்டில் பிறந்த சகோதரர் நம் இந்தியாவை மாற்ற முன்வந்தார். அவர் எப்போதுமே நம் மக்களை முன்னோடியாக மாற்றுவதற்குப் போராடினார். அவர் தான் இளைஞர் தமிழ்ப்பன் அவர் பல்வேறு நகரத்திற்குச் சென்று அங்குள்ள மனிதர்களிடையே உரையாடி வென்றார். இத்தகைய சிறப்பிற்கு முன்னதாகவே 1906 இல் ஒரு வீரர் செய்தார். நம் இந்தியாவைத் தூய்மையாக மாற்றுவதுஇளைஞர் நம் கையிலே!

மோடியின் செயல்:

நம் இந்தியாவைத் தூய்மையாக மாற்றும் வகையில் மோடி தூய்மை இந்தியா என்று கொண்டு வந்தார். அந்நிலையில் பல்வேறு சட்டங்கள் வந்தாலும் நாம் வெற்றிகாண வேண்டும் என்று அவர் கூறுவார். தூய்மை இந்தியா திட்டம் அனைவராலும் வரவேற்கப்பட்டது. இத்தகைய நிலையில் தூய்மை இந்தியா திட்டம் அனைவராலும் போராடி நிறைவேற்றப்பட்ட ஒரு திட்டம். ஒரு பழமொழியில் கூறுவர்

"சுத்தம் சோறு போடும்"

இத்தகைய வரி ஒருவர் வாழ்க்கையையே மாற்றும். ஒவ்வொருவரும் நம் நாட்டையும் நம் மக்களையும் போற்றி இருத்தல் வேண்டும்.

மனிதனாக மாறிடு:

ஒவ்வொரு மனிதனும் எப்பொழுதும் மனிதநேயத்தைக் கொண்டு இருத்தல் வேண்டும். மனிதநேயம் என்பது நம் வீட்டையும் நம் நாட்டையும் சுத்தமாகவும் சுகாதாரமாகவும் மாற்றுவதாகவும் இருத்தல் வேண்டும். நம் நாட்டை பேணுவதால்தான் வாழ்க்கையிலே உயர் முடியும். அதுதான் மனிதநேயம். 1908 இல் சுகாதார திட்டம், 1919 இல் தூய்மை சுத்தம் திட்டம்.

நம் நாட்டில் அமுல்படுத்திய திட்டம் முழுதும் நம் நாட்டின் தூய்மையைக் கொண்டு செயல்பட வேண்டும் என்பதே ஆகும். ஒவ்வொரு மக்களும் வாழ்க்கையில் உயர் வேண்டும் என்பதையே எண்ணமாகக் கொண்டுள்ளனர்.

தூய்மை இந்தியா உருவாவதற்குச் சுத்தம் மற்றும் சுகாதாரம், பிளாஸ்டிக் ஒழிப்பு

குப்பைத்தொட்டிகள் பயன்படுத்துவது, மரங்கள் வளர்ப்பது, மழைநீர் சேகரிப்பு ஆகியவையும் உள்ளடக்கியவையாகும்.

இந்திய மக்கள்:

தூய்மையாக மாற்றுவோம் என்று எண்ணுதல் மிகவும் அவசியம் ஒவ்வொரு மனிதரும் தூய்மையை அமுல்படுத்தி கொண்டு இருத்தலே நல்லது.

வாழ்வில் உயர்ந்தால் மாற்றங்கள்

வந்தால் மட்டும் போதுமா?

நம் நாட்டையே உயர்த்தி காட்டுவோம்

என்று எண்ணம் வராதா?

நம் நாட்டை பெரும் சக்தியோடு மாற்றி காட்டுவோம் என்று எண்ணுதல் வேண்டும்.

சுத்தம் எண்ணம் மற்றும் செயல்பாடுகள்:

நம் நாட்டில் உள்ள மக்கள் சுத்தம் என்றும் சோறு போடும் என்று நினைக்கிறார்கள். ஆனால் வாழ்க்கை என்று எண்ணினால் ஓடி போகின்றனர்.

"தன்னலம் மற்றும் பிறர் நலம் என்று எண்ணம் கொள்"

வாழ்வில் தன்னுடைய நலத்திற்கு என்று எண்ணிய பிறகு அதனை மேற்கொள்ள வேண்டும். வானம் பூமி என்று எண்ணிய மக்கள் சுத்தம் சுகாதார என்று எண்ண மறந்தார்கள். வணங்குகள் நம் நாட்டையும் மக்களையும் வணங்குகள். "வானமே எல்லை என்று எண்ணி நம் இந்தியாவை மேம்படுத்துவதே நம் கடமையாகும்."

திட்டங்கள் அமல்படுத்திய நாடு:

இந்தியா, சீனா, ரஷ்யா, முதலில் அமுல் படுத்தியது. ஆனால் மக்கள் தந்திரக் கொண்டு செயல் படுத்த மறந்து விட்டார்கள்.

திட்டங்களும் நம் நாட்டு அரசியலும்:

மக்கள் அனைவரும் நம் நாட்டின் தாய்மையை நினைத்துச் செயல்படுதல் வேண்டும். நம் மக்களை மனதில் வைத்து போராடுதல் வேண்டும். வீட்டையும் நாட்டையும் நினைத்து வெற்றிப்பெற வேண்டும். வாழ்க்கையில் அரசியல் வரலாம். ஆனால் நம் நாட்டு மக்களை நினைத்து செயல்படுவது மிகவும் சிறந்தது.

தாய்மை இந்தியா திட்டம் நரேந்திர மோடி அவர்கள் கொண்டு வந்தாலும் அதனை நிறைவேற்றுவதற்குப் பல்வேறு மனிதர்கள் உள்ளனர். நம் அரசியல்வாதிகள் நம் நாட்டைக் காப்பதற்குச் சென்று வாழ்க்கையை இழக்கக் கூடாது என்று எண்ணி தன்னலமாக இருக்கிறார்கள்.

"வாழ்க்கையின் சிகரம்

தாய்மை இந்தியாவாக மாற்றும் முறையே"

இந்நிலை அனைவரின் எண்ணமாக இருத்தல் வேண்டும். தாய்மை இந்தியாவாக மாற்றுவதே நம் லட்சியம்.

முடிவுரை

ஒவ்வொரு மனிதனும் "இந்தியா என் நாடு" என்று எண்ணி நம் நாட்டையும் நம் நாட்டு திட்டங்களையும் நன்முறையில் அமுல்படுத்தி நற்செயலில் ஈடுபாட்டுடன் செயல்பட வேண்டும்.

"மக்களின் தத்துவம் நம் நாட்டின் சுத்தம்"

"சுத்தத்தோடு செயல்படு மனிதநேயத்தோடு வாழ்ந்திடு"

லி. சந்தியா.

சிந்தனை செய் மனமே

கோளாவும் தமிழ்நாடும் ஒன்று சேரும் எல்லைக்கோடு, மேடும் பள்ளமும் உள்ள ஏற்றத் தாழ்வாக அமைந்துள்ள ஒரு குக்கிராமம். அங்கு மின்சார ஒளி பட்டதை விட சூரியவெளிச்சம் பட்ட நாட்கள் தான் அதிகம். சுற்றிலும் அழகான சின்னச்சின்ன நிரோடைகள் உயர்ந்தும் உயராமலும் உள்ள மரங்கள் வண்டுகளின் ரீங்கார ஓசைகள் எப்போதும் கேட்டுக் கொண்டே இருக்கும். அங்கொன்றும் இங்கொன்றுமாக ஆக சுமார் ஐம்பது வீடுகள் கொண்ட குக்கிராமம்.

இளங்கோவன் என்னும் இளங்கோ அந்த கிராமத்தில் தான் பிறந்தான். கல்விக்காகக் கோவையில் உள்ள தனியார் கல்லூரியில் படித்துவந்தான். அவனது பன்னிரண்டாம் வகுப்பில் பெற்ற மதிப்பெண்ணுக்காகவும் அவன் சேர்ந்த கல்லூரியின் பெயருக்காகவும் வங்கியில் இருந்து எந்தவித சிபாரிசும் இல்லாமல் கடன் பெற்றான். அதன் மூலம் முதல் மூன்று வருடமும் இனிதாக முடித்தான். அவனது தாய் பூங்கோதை காட்டில் உள்ள விறகுகளைச் சேகரித்து பக்கத்திலுள்ள ஊரில் விற்று பணமாக்கிக் கொள்வான். தந்தை தயாளன் இரண்டு மைல் நடந்து சென்று விவசாய கூலி செய்து வந்தான். இது தான் அவனது குடும்பம். வறுமையான சூழ்நிலையிலும் தனது மகன் கல்லூரியில் படிக்கின்றான் என்று அண்டை அயலாரிடம் கூறி பெருமைப் பட்டுக் கொள்வார்கள்.

இன்று அவன் ஒரு பொறியியல் பட்டதாரி. படிப்பும் முடிந்தது. பட்டதாரி ஆகிவிட்டான் இளங்கோ. அவனது பெற்றோர்களுக்கு மட்டுமல்ல. அந்த ஊர்க்காரர்களுக்கு எல்லாம் ரொம்ப சந்தோசம். அவனால் ஊர் சீர்ப்படும் என்ற ஆதங்கம்தான் ஆனால், அவனது எண்ணமே வேறு விதமாக இருந்தது. பெரும்பாலும் கோளாவில் உள்ளவர்களில் பலர் அர்பு நாட்டுக்குச் சென்று கைநிறைய சம்பாதிப்பவர்கள். அதனால் தானும் அவ்வாறு துபாய்க்குச் சென்று கைநிறைய சம்பாதித்து இந்த

கிராமத்தை விட்டு வேறு ஒரு டவுனுக்குச் சென்று பெரிய வீடாக சொந்தமாக கட்டி சந்தோசமாகவும் பணக்காரனாகவும் வாழ வேண்டும். என்ற எண்ணம்தான். இதற்காக தனக்குத் தெரிந்த நண்பர்கள் மூலம் வெளிநாடு செல்வதற்கு என்ன செய்யலாம் என்ற ஆலோசனைகளை கேட்டு அதன்படி பாஸ்போர்ட் பெற விண்ணப்பித்தான். அதுமட்டுமில்லாமல் இங்கிருந்து துபாய்க்கு வேலைக்கு அழைத்துச் செல்லும் ஏஜன்டுகளையும் சந்தித்து பேசினான். ஒரு வழியாக அனைத்தும் அலனுக்கு அவன் எதிர்பார்த்தது போல் நடந்தது. ஆனால் அதற்கு மூன்று லட்சம் பணம் தேவைப்பட்டது.

குடும்பம் உண்பதற்குக் குறைவில்லாவிட்டாலும் பணம் காசு என்று விஷயத்தில் குறைவு தான். இதை தன் தந்தையிடம் சொல்லி வருந்தினான். தயாளனுக்கோ அவன் மகன் வெளிநாடு செல்வதில் துளி கூட விருப்பமில்லை. ஒரே பிள்ளை என்பதைவிட இந்த ஊரிலே தங்கி வேலை செய்து, ஊருக்கும் பிறந்த மண்ணுக்கும் அவனால் ஏதாவது நல்லது நடக்க வேண்டும் என்ற ஆசை. என்ன செய்வது. தயாளன் மகனின் வெளிநாட்டு பயணத்துக்கு பணம் பார்ப்பதா? வங்கியில் பெற்ற கடனை அடைப்பதா? அல்லது அவனால் ஊருக்கு நன்மை கிடைப்பதா? எது என்று தெரியாமல் தவித்துப் போனான். தயாளன் ஒரு வழியாக மகனின் முடிவுக்கே விட்டார். ஆனால், அதிலும் ஒரு சிக்கல் இருந்தது. பக்கத்து ஊரில் உள்ள ஆறாம் வகுப்பு மட்டுமே படித்த செண்பகத்தை

திருமணம் செய்துக்கொண்டால் அவன் வெளிநாடு செல்வதற்கான பணத்தைச் செண்பகத்தின் அப்பா தருவதாகச் சொல்லியிருந்தார். இதை எப்படி இளங்கோவனிடம் சொல்வது? இவன் படித்த படிப்புக்கு பெண்ணின் படிப்பு இணையில்லை இருந்தாலும் வேறு வழியில்லாமல் தயாளன் தன் மகனிடம் விஷயத்தை மெல்ல மெல்ல விவரமாகக் கூறினார். இளங்கோவுக்கு இதில் விருப்பமில்லை என்றாலும் பெண்பார்க்க ஒருமனதாகச் சம்மதித்தான். பெண்விட்டார் பெண்ணை அலங்காரம் செய்து ஒரு அழகு பதுமையாகக் கொண்டு வந்து நிறுத்தினார்கள். மெதுவாக அவளை ஏறெடுத்தும் பார்த்த இளங்கோவுக்கு அந்த லட்சுமிகரமான முகத்தைப் பார்த்த முதல் பார்வையிலேயே மனதிற்குப் பிடித்துவிட்டது. பையன் வெளிநாடு சென்று கை நிறைய சம்பாதிக்கப் போகிறான் என்ற சந்தேகம் பெண்விட்டாரின் முகத்தில் தெரிந்தது. ஒரு வழியாகத் திருமணம் இனிதே நடந்து முடிந்தது.

இரண்டாம் மாதத்தில் வேலைக்காகத் துபாய்க்கு விமானத்தில் பறந்தான். பறந்தது விமானம் மட்டுமா அவனது எண்ணங்களும் எதிர்காலத்தை நோக்கிப் பறந்தன. செண்பகம் கருவுறுகிற ஒரு வருடம் முடிந்தது. அழகான ஆண் குழந்தை ஒன்று பிறந்தது. என்ற செய்தி கிடைத்ததும் மகிழ்ச்சியின் எல்லைக்கே போய்விட்டார். ஒரு வாரம் மட்டும் விடுமுறை வாங்கிக் கொண்டு குழந்தையையும் மனைவியையும் பார்க்க ஆவலாக வந்தான்.

செண்ணை விமான நிலையத்திலேயே அவனது தந்தை மற்றும் தாயார் வந்து காத்திருந்தனர். மனைவிக்குத் தன் செல்லக் குழந்தைக்கும் வித விதமான துணிமணிகளை வாங்கி வந்திருந்தான். அதைப்போல் தன் தாய்தந்தைக்கும் மற்றும் மாமனார் மாமியார்க்கும் பொருட்கள் வாங்கிக் கொண்டு வந்திருந்தான். பின்னர் மூவரும் சாலை வழியாக சொந்த ஊருக்குச் சென்றனர். ஒருவாரமும் இளங்கோவின் வீடு அமார்க்களம்தான்.

இளங்கோ குழந்தையை விட்டு அகலவே இல்லை. அவனைக் கொஞ்சுவதிலேயே நேரம் போனதே தெரியவில்லை. தான் முழுவாழ்வு வாழ்ந்ததாக நினைத்தான். ஊரிலே புதியதாக வீடு கட்டுவதற்கும் உண்டான ஏற்பாடுகளையும் செய்து வங்கியில் சேமிப்பு கணக்கில் இருந்து பணத்தை எடுத்து தந்தையிடம் பணம் கொடுத்துவிட்டு வேலையை ஆரம்பிக்க, பின்னர் வேண்டும்போது பணம் அனுப்புக்கிறேன் என்று சொல்லிவிட்டு பிரியாவிடை பெற்று மீண்டும் துபாய்க்குச் சென்றான்.

நாட்கள் மாதங்களாயின. மாதங்கள் வருடங்களாயின. அவனது ஒப்பந்தநாள் முடிந்து மூன்று வருடம் கழித்து மகனின் பிறந்தநாள் என்று வருவதாக தன் தந்தைக்குத் தகவல் அனுப்பினான். சென்ற முறை வந்தபோதே மனைவியிடம் புதிய கைப்பேசியைக் கொடுத்ததால் அது அன்றிலே நுந்து இன்று வரை சிணுங்கிக் கொண்டே இருந்தது. இதனிடையே வீடு முழுவதமாக சிபு முடிக்கப்பட்டு கிரகப்பிரவேசத்தின் போது கூட

இளங்கோ ஊருக்கு வரவில்லை. கட்டிய வீட்டையும் தன் மழலைச் செல்வத்தை பிறந்தது முதல் மூன்று வயது வரையில் உள்ள வளர்ச்சியையும் விதவிதமாக போட்டோ எடுத்து அவனுக்கு வாட்ஸ் அப்பில் செனப்பகம் அனுப்பிக் கொண்டு இருந்தான். இதைக்காணும் போதெல்லாம் அவன் அளவில்லா மகிழ்ச்சி அடைந்தான். கட்டியவீட்டையும் மனைவி மகனையும் எப்போது காணப்போகிறோம் இந்த தடவ போனால் குறைந்தது ஆறுமாதமாவது தங்கிவிட்டுத்தான் திரும்ப வேலைக்கு வரவேண்டும் என்றும் மனதிலே நினைத்துக் கொண்டான். அவன் ஊருக்குக் கிளம்பும் நாளும் வந்தது.

துபாயில் விமான நிலையத்தில் காத்திருந்த போது விமான நிலையத்தின் தொலைக்காட்சி திரையில் வரிசையாக வரிவரியாக வந்த செய்தியைப் பார்த்து அதிர்ந்து போனான். அது இதுதான் மலையாள தேசத்தில் மழை வெள்ளம் 12 மாவட்டங்கள் மிதக்கின்றன. நூற்றுக்கும் மேற்பட்டோர் பலி. தமிழ்நாட்டின் பெரிய பெரிய ஆறுகள் எல்லாம் நிரம்பி வழிகின்றன என்ற செய்தியைப் பார்த்ததும் அதிர்ச்சி அடைந்தான். உடனே தன் வீட்டாரைத் தொடர்புக் கொண்டான். அவர்கள் இவன் இருந்த அவன் சொந்த வீட்டு விலாசத்தைக் கூறாமுறை கேட்டார்கள் சொன்னான். தலையில் இடியாக இறங்கியது அவர்கள் சொன்ன செய்தி. அவன் சொந்த ஊர் அவன் மாமனார் ஊர் அனைத்தும் வெள்ளத்தில் அடித்துச் செல்லப்பட்டது.

அவர்களைச் சார்ந்த எந்த விவரமும் அவனுக்குக் கிடைக்கவில்லை அநேகமாக அவர்கள் யாரும் உயிருடன் இருக்க வாய்ப்பில்லை. ஆனாலும் நாங்கள் அவர்களை தேடிக்கொண்டு இருக்கிறோம் என்பதுதான் அவர்கள் தந்த பதில். செய்தியறிந்து

கதறினான். தரையில் விழுந்து புரண்டான். விமான நிலையத்தில் உள்ளவர்கள் விவரம் அறியாமல் அவனை வேடிக்கை பார்த்தார்கள். உலகமே இருண்டது செய்வதறியாது தவித்தான் அவனைத் தேற்றுவோ ஆறுதல் கூறவோ அந்நியநாட்டில் யாருமில்லை எவ்வளவு பணம் சம்பாதித்து என்ன பயன்? மனைவி மகன் தாய் தந்தை உற்றார் உறவினர் என இன்று யாரும் அவனுக்கு இல்லாமல் போய் தனிமரமாக நின்றான்.

HINDI DIWAS CELEBRATIONS - 14.09.2018

Department of Hindi (Aided stream) celebrated Hindi Diwas on 14-09-2018 (Friday) by posing a challenge to teach 50 Hindi words in 15 minutes to Non-Hindi belt students. There was a tremendous response from the students' part. Nearly 600 students took part in this program and learnt many Hindi words. Viewers who were able to mention atleast 15 Hindi words in 30 seconds were given an appreciation card. This platform of learning was open for both staff & students. Many teachers too took part in this fun filled learning activity with much enthusiasm and made it a grand success.

'HINDI BAZAAR'

As a part of Golden Jubilee Celebrations of Srimathi Devkunwar Nanalal Bhatt Vaishnav College for Women, Department of Hindi(Aided stream) has arranged for 'HINDI BAZAAR' on 28/02/2019 Thursday. Many shops like Grocery shop, Fruit stall, Vegetable shop, Flower Bazaar were set. A tea stall and a Juice point were also part of Hindi Bazaar. Students played vendors. The Highlight is various things available in these shops were displayed with their Hindi names. Students who visited this Hindi Bazaar learnt many basic Hindi words effortlessly. The Vendors engaged the visitors and encouraged by conversing with them in Simple Hindi to which they responded encouragingly.

A puppet theatre was also arranged in the Hindi Bazaar. The puppets interacted with the visiting students and the staff members in Simple Hindi and drew a very good response.

A simple model of Animal & Bird Sanctuary was also arranged in the Hindi Bazaar enabling the students and staff members of the College to learn Hindi names for various birds, animals, insects, reptiles etc.. Various activities were given to the visitors of the Zoo like... Place the monkey on the tree, Catch the snake, feed the crocodile with the frog, catch the green butterfly etc., which enabled the visitors to learn Hindi through fun and entertainment.

HINDI BAZAAR was visited by nearly 900 students and all the staff members of our College. It was a grand success in accomplishing it's goal of imparting knowledge in Basic Hindi effectively to non-Hindi Belt students and staff members through Fun.

DECISION MAKING

INTRODUCTION:

The thought process of selecting a logical choice from the available options is known as Decision Making. In other words, it is the process of identifying and choosing alternatives based on the values, preferences and beliefs of the decision-maker.

DEFINITION:

Decision making may be defined as the process by which individuals select a course of action from among alternatives to produce a desired result.

THE NEED FOR DECISION MAKING:

Decision making covers almost every aspect of management.

- As a planner, a manager has to devise steps to achieve the objectives of the company.
- As an organizer, a manager has to choose horses for courses, that is, to select suitable persons for the respective jobs and assign the jobs to them.
- As a leader, the manager has to motivate the subordinates and integrate their efforts.
- As an authority, the manager has to exercise control over material and human resources.

TYPES OF DECISION MAKING:

There are three types of decision making. They are:

- BASIC AND ROUTINE DECISIONS.
- PERSONAL AND IMPERSONAL DECISIONS.
- PROGRAMMED AND UN-PROGRAMMED DECISIONS.

BASIC AND ROUTINE DECISIONS:

Basic and routine decisions are repetitive in nature. There will generally be a set of rules and regulations to be followed in taking such decisions.

PERSONAL AND IMPERSONAL DECISIONS:

In an official / professional setting, there emerge decisions that have some element of personal involvement in official work.

There are a number of decisions that are concerned with shareholders, customers, dealers, or general public where there is no scope for any personal element. These decisions are taken impersonally.

PROGRAMMED AND UN-PROGRAMMED DECISIONS:

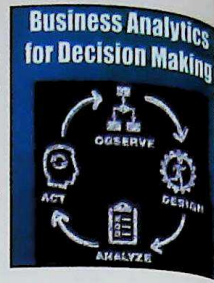

With the increased use of computers in all fields, decision making can also be done through machines through programmed software.

The proposal to shift the company to a more spacious place needs a lot of deliberation. Ultimately, a decision may be taken not to shift the company at all. Such decisions are un-programmed decisions.

THE DECISION MAKING PROCESS :

The decision making process has four stages.

- EXPLORATIVE (Searching)
- SPECULATIVE (Analysing)
- EVALUATIVE (Weighing options)
- SELECTIVE (Commitment)

SANSKRIT SOURCES IN DECISION MAKING

1. KAUTILYA'S ARTHASAstra

Kautilya discusses the causes of calamities in the state, exclusively in the eighth chapter of Arthashastra. While facing calamities, an administrator has to take quick decisions. The Arthashastra gives a list of five steps for decision making. They are:

- 1) Deliberation is counsel,
- 2) Securing the fruits of deliberation,
- 3) Carrying out undertakings,
- 4) Managing income and expenditure, and
- 5) Taking steps against possible setbacks.

Kautilya gives a series of case study and provides solution to them. Many of them may not have a bearing on the present day situation but still they are worth noting for methodology purpose.

For example, calamities may befall the treasury and the army at the same time. Which would be attended to first? Kautilya first states the option of one kaunapadanta, who says calamity on the army is more serious and therefore it must be attended to first, for the subjugation of the enemies is dependent on the army. If the army is neglected, the enemies will take advantage of it and the loss of treasury becomes imminent. So it is important to take the right decision at the right time.

2. VIDURANITI

The Viduraniti portion on Mahabharata has several ideas on decision making. It speaks of six evils to be discarded by a person who works towards prosperity; they apply equally well to decision making.

The six evils are:

- 1) Excessive sleep,
- 2) Carelessness,
- 3) Laziness,
- 4) Fear,
- 5) Anger, and
- 6) Procrastination.

3. RAMAYANA

Vibhisana, Ravana's younger brother, seeks protection under Rama. The big question is whether to accept him or not. An important and quick decision have to be taken by Rama. Rama could have made the decision all by himself but he chose to consult all his trusted colleagues. Sugriva says,

This is an important aspect in decision making. An administrator must listen to the ideas of others. Obviously, he/she cannot take all the suggestions. Only one may be taken and the others will have to be discarded. Rama accepted Vibhisana offer of surrender and also promises him the Ratshasa kingdom. It is a bold and strategic decision.

4. KALIDASA'S MALAVIKAGNIMITRAM

In Kalidasa's Malavikagnimitram, King Agnimitra is enraged at the act of the king of Vidarbha, who has imprisoned his cousin Madhavasena, his wife and sister. Agnimitra demands that they should be released immediately. The king of Vidarbha declares that Madhavasena would be released only if Agnimitra releases his brother-in-law. He also says casually that Madhavasena's sister has disappeared and that she could not be traced. According to Agnimitra, the king of Vidarbha is a natural enemy and therefore he has to be subjugated. Agnimitra therefore orders an expedition the minister appreciates his stand and says:

An enemy who has first come to the throne and therefore he has not to be secured the devotion of his subjects is like a freshly planted tree that has not struck his roots deep into soil; both can be easily uprooted.

5. BHARAVI'S KIRATAJUNIYA

In the decision making process, the manager should pay attention to the views of his team members. This idea is emphasized by Bharavi in his Kiratajuniyam. The Pandavas are languishing in the forest during their exile. Meanwhile Duryodhana is consolidating his position in the kingdom. The spy says:

He is an undesirable counselor who does not give proper advice to his master; and he is a bad master who does not listen to his counselors; for, prosperity of every kind is delighted to attend the place where the master and the counselors are always in perfect accord with each other.

There are many such instances in Sanskrit literature where the idea on decision making is set forth. They may not be directly connected with the concept of decision making as we have today but relevant illustrations from literary works may add variety to the subject and make the study interesting.

LEADERSHIP BASED ON VIDURA - NITI

INTRODUCTION

Leadership is defined as the process of influencing group activities towards the accomplishment of goals in a given situation. A leader is a person, who is capable of leading his group members in all the activities with regard to goal formation and goal accomplishment.

The definition presupposes that for any person to emerge as a leader, a group is necessary. Leaders do not evolve from vacuum. It is the group which evolves a leader who has influenced the group to do so. It is the group that gives the authority to the leader. The leader motivates the group that gives the authority to the leader. The leader motivates the group and unites them for a formidable task. Successful leaders do not instruct. They act and set an example for others to follow. A leader must be capable of taking good decisions, resolving differences among minor groups and integrating them into a cogent group.

MANAGER AS A LEADER

The Manager of every department is a leader since the employees under him/her expect his/her orders and carry them out as per his/her instructions. A Manager has to study the composition of his/her group individual qualities of each member of the team and must create a friendly atmosphere for his/her group members to function effectively. He /she must be able to console his/ her team members if they have a problem, remove the barriers of communication and channelize their efforts. Everybody is controlled by emotions and therefore a manager has to provide a buffer for the emotional imbalances of the people of his/her group. A Manager, as a leader, is vested with the power to get the work done. A successful leader(manager) is one who use his/her powers judiciously for achieving the organizational goals. It is said that a person who works hard finds time very efficiently and apportion his/her time equitably for all his/her endeavors. The managers will be subject to stress and strain but they have to overcome and find solutions for them.

A leader is one who never shies away in facing the problems. In fact, it is usually a crisis situation that brings the best out of a leader. It is not enough of a manager to manage only the situations but has to lead the team members to a better position. A Manager can become a good leader if he/she is able to influence people to constructive work without pressurizing them. He/she should use his/her authority without making people realize that he/her is doing so. A manager should not be a person who is seen once in a while issuing orders from an ivory tower. He/She should be seen guiding people all through the day-to-day activities, solving problems then and there.

LEADERSHIP STYLES

Based on the behaviour of the supervising authority, leadership styles are classified as

- Autocratic Leadership
- Democratic Leadership
- Free-rein Leadership

The advantage of autocratic leadership is that it paves the way for quick decisions but it may produce a demoralizing effect on the followers, who may not be aware of the goal to be reached. Consequently, performance level is likely to dip. The democratic style may be called consultative leadership. In this, the team members are taken into confidence in decision making and therefore, their involvement is likely to be high. It can lead to job satisfaction among the employees and their morale will be also boosted to an higher level. One possible disadvantage in this style is that it is difficult to pin the responsibility on somebody if something goes wrong.

In the free-rein leadership style, complete delegation of authority is given effect and the total responsibility is in the hands of the employees. The leader just monitors their progress and gives guidance now and then. This style of functioning looks good only on papers. But in practical circumstances, such a style may not be feasible since, in our country, the workers are not sufficiently educated and they still lack the maturity to handle the crisis.

THEORIES IN LEADERSHIP

The discussion on what makes a person different from others have been going on among anthropologists, philosophers and psychologist for the past 200 years and some important theories have come up in the course of such discussions. The theories discussed in this are

- Trait Theory
- Behavioural Theory
- Situational Theory

TRAIT THEORY

Leaders differ from others on account of some traits like intelligence, maturity of ideas and actions, inner urge to forge ahead of others and a concern for others. One of the criticisms against this theory is that some of the people who possess such qualities do not become leaders. There is no uniformity of opinion on the number of traits and which can be considered "leadership traits".

BEHAVIOURAL THEORY

While the trait theory aims in explaining what the leaders are, behavioural theory tries to evaluate leaders on what they do. In other words this theory is based on the behaviour of leaders. For example, majority of the leaders are able to establish a rapport with the rank and file, communicate with them and get the feedback from them. They are able to form a team and rally the members around for doing a constructive work.

SITUATIONAL THEORY

According to this theory, neither the trait nor the behaviour brings out the true qualities of a leader, but particular situation evolves a leader. Under normal circumstances, a leader may behave like an ordinary person. But in a critical situation, he rises to the occasion and accomplishes what others fail to do or hesitate to do. While others panic during a crisis, the prospective leader remains cool, analyses the situation and acts boldly. He/She is flexible, listens to the views of others and acts democratically. He/she is friendly, enthusiastic, co-operative and helpful. He/ She keeps others interested in him/her but sees at the same time that the followers do not come too close to him/her. Thus he/ she prevents others from knowing his weakness.

do, the leader steps in and guides them towards the goal. A leader demonstrates and trains a group to do the assigned job. Some leaders may have the exclusive task of decision making. Before taking a decision, a leader makes an assessment of the effect of his/her decision in the group. Every decision has to be taken with a very careful consideration. It is not enough for a leader to take decisions, his/her important job is to convince the team members when the decision taken by him/her. The main factor that makes a group accept a decision is the amount of time required to make the decision. In each organisation, a leader may be called by different designations/ titles. In each function, the leadership style changes according to the demands of the job concerned.

VIDURA NITI

Vidura is one of the central characters in the Mahabharata, Hindu epic. He was the prime minister of Kuru Kingdom and also the uncle of the Pandavas and Kauravas. According to Krishna, Vidura was considered as

Dharmaraja which means the Lord of truth. Krishna respected Vidura for his devotion to people's welfare, and his proficiency in every sphere of knowledge. ViduraNiti comprises of maxims of Vidura on "right conduct" in the form of a dialogue with King Dhritarashtra. This text, containing more than 500 slokas, is found in chapters 33 to 40 of Udyoga Parva of Maha Bharata of Sage Vyasa. Vidura outlines things what wise people and leaders should do, and things they should not. These are known as Viduraniti. Vidura mentions that Self awareness, self control, clarity of goal, industriousness and ethical conduct are essential qualities of wise rulers. In all situations a leader should try to find the ultimate truth before forming an conclusion just like spending lot of efforts in extracting gold from the ore. ViduraNiti is universal, stressing on people's duties and responsibilities. Its style is direct and simple. Qualities and Characteristics of a Leader

Vidura mentions the following ten are cultivable qualities of leadership, prompted by head and heart: wisdom, intelligence, judgement, patience, self control, humility, equanimity, righteousness, endurance and tolerance.

Some situations that throw up a leader are, the characteristic of the group is one of them. If the group is confused, the leader may take advantage of this and project himself/herself. When a group remains in a confused state, not knowing what to do The Vidura-Niti prescribes a number of qualities for a wise man which are applicable to a leader as well.

**आत्मज्ञानं समारम्भस्तितिक्षा धर्मनित्यता ।
यमर्थात् नापकर्षन्ति स वै पण्डित उच्यते ॥**

Vidura-NitiCh1 V-21

He is a wise man whom knowledge of the self, exertion, forbearance and steadfastness of virtue do not drag away from the goals of life.

**क्रोधो हर्षश्च दर्पश्च ह्री स्तंभो मान्यमानिता ।
यमर्थात्रापकर्षन्ति स वै पण्डित उच्यते ॥**

Vidura-NitiCh 1 V-24

He who is neither anger nor joy, neither pride nor bashfulness, neither obstinacy (rigidity) nor self-esteem, drags away from the high ends of life (is a wise man).

**यथाशक्तिचिकीर्षन्ति यथाशक्ति च कुर्वते ।
न किञ्चिदवमन्यन्ते नराः पण्डितबुद्धयः ॥**

Vidura-NitiCh 1 V-28

Those are wise men aspire to do as much as lies in their power, do act to the best of the best of their ability and do not look down upon anything.

The foremost characteristics of a wise man is that he understands concepts quickly, listens to others patiently, grasps the main purport and applied it judiciously. He dose not spend his energy in the affairs of others unasked.

**नाप्राप्यमभिवाञ्छन्ति नष्टं नेच्छन्ति शोचितुम् ।
आपत्सु न च मुह्यन्ति नराः पण्डितबुद्धयः ॥**

Vidura-NitiCh1 V-30

A wise man undertakes the task after due consideration, who, once begun, dose not stop in the middle of his action, who never waste his time and who has his mind under control.

Other characteristics of a leader that are stated in Vidura-Niti are:

1. They are devoted to noble deeds.
2. They are engaged in actions that lead to prosperity.
3. They are never jealous of others.
4. They do not over-rejoice on the honors conferred on them.
5. They are eloquent, can see pros and cons of things and one endowed with ready insight into every rising problem and who can quote the authority quickly and interpret them
6. He/she should avoid sleep, drowsiness, fear, anger, laziness and procrastination.

Conclusion:

Leaders have their own followers who are prepared to work for them. It is the responsibly of the leaders to direct the effort of such followers towards constructive activities. A leader must realize that a destruction to the work/ company is easy but growth takes a long time. A leader has to inspire his/her team members for the overall growth of the organisation. He/she had to build a team and guides the team members towards organizational goals.

BIOLOGICAL IMPLICATIONS OF GRAVITY IN VEDAS AND THEIR ANALYSES IN THE SPACE RESEARCH FINDINGS

INTRODUCTION

Vedas offer some remarkable insights that even go beyond contemporary knowledge of medicine. Vedas, in keeping with their name meaning 'knowledge', contain a good deal of scientific knowledge about medical and biological implications of gravity that was probably lost over millennia, which Deva Ramananda seeks to recover by his research into Vedas. By a path of discovery quite different from that followed by modern science, the Vedic sages had arrived at startling conclusions about effect of gravity on biological phenomena. Modern space researches conducted on animals to determine effects of microgravity and hyper gravity on the healing of wounds and bone fractures hardly are with Vedic knowledge and suggest us to plan our research in a different way. Vedic verses also provide first hint of controlling morphological development of embryo by gravity to get some desirable result.

MEDICAL CONCLUSION ON THE FLOW OF BLOOD FROM ATHARVA VEDA

Atharvaveda explains in details about the mythical background of Ayurveda. Anatomical structures, digestion and metabolism, circulatory system, pathology, herbology, general medicine, metals and minerals, their proper applications and surgical methods have all been described.

Basics of biology make us understand on elementary biology that oxygenated blood flows from heart to peripheries through arteries and deoxygenated blood flows from periphery to heart through veins. This fact was discovered by Dr. William Harvey in 17th century.

From Atharvaveda, Griffith translates it as follows: " Who stored in him floods turned in all directions, moving diverse and formed to flow in rivers, Hasty, red, copper-hued, and purple, running all ways in Purusha, upward and downward?"

It would be no exaggeration to say that thousands of years before William Harvey, sages provided fundamentals of circulatory system. oxygenated-deoxygenated blood, arterial and venous circulation.

"GRAVITY"- THE MAIN CAUSE OF EXISTENCE OF HUMANS WITH THE FLOW OF BLOOD

Deva Ramananda alludes to the verse RV 8-1-12 which states:

य रते चिदभिषिषः पुरा जन्म्य आन्द्रः |
सन्धातासन्धिं मघवा पुरुवसुरिष्कर्ता विहृतं पुनः ||

Rig Veda 8-1-12

Wilson translates the verse as follows: " He (gravity) without healing materials before the flow of blood from the neck was effecter of the reunion, the opulent Magavan, makes whole the dissevered(parts)."

RV 8-1-12 provides the evidence that Rishis had good knowledge of surgery in Rig Vedic times and they discovered the fact that Indra (gravity) is quick healer of wounds 'under certain conditions, gravity is capable of joining damaged tissues, bones, muscles and organs quickly . this is a very strange result.

Probably, Vedic rishis also knew the facts how gravity is responsible for the ultimate development of cells, organs, tissues and morphological development of embryo . since other verses hints at influence of gravity on the process of ageing, we have enough room to speculate that rishis might have possessed secrets of immortality; studies on influence of microgravity on healing of wounds have shown that wounds are slow to heal in the microgravity environment. in space, the lack of gravity keeps human cells from growing naturally. For this the reason tissue growth in space is slow.

HOW GRAVITY IS USED IN CURING WOUNDS IN SPACE?

Treating injured astronauts in space can be particularly challenging. The microgravity environment can make stabilizing an injured body very difficult. Researches done by the NASA Marshall Space Flight Centre - SBIR Program have shown that "cells exposed to microgravity and hyper-gravity indicates that human cells need gravity to stimulate cell growth. As the gravitational force increases or decreases, the cell function responds in a linear fashion. This poses significant health risks for astronauts in long term space flight."

Scientists have observed the decreased production of red blood cells in microgravity but they are not sure why this occurs. Researches have shown that decreased exertion and prolonged weightlessness result in mild cases of 'space' anaemia. While this condition does not pose very serious threat to life, scientists are concerned about how anaemia negatively affects crew performance. Does hyper gravity exposure lead to increase production of red blood cells? If yes, then hyper gravity can be cure of anaemia.

Contrary to space research findings, Vedic Rishis reveals a very interesting fact about gravity that it is capable of healing wounds. Verse mentions that even without healing materials and even before blood started flowing from the neck, the opulent Magavan, made whole the dissected organs, It should be noted that space studies have been limited to a small portion of the life cycle of the animal. Most spaceships return specimens to Earth within a number of days to several weeks in space and most samples are collected only after return of spaceships to earth not during flight. The animals have tendency to recover soon. For these limitations, space researches are confounded by a recovery, thus, predicting evolutionary changes from these insufficient data is a big challenge.

When we return to Vedic interpretations, we run into problems of a different kind. The point "to be kept in mind is the extreme sophistication of structure and language of the Rigveda. Even superficially seen, its metrical forms and linguistic structures are the most sophisticated the world has even known. To go with this, its language, far from being elaborate, is concise yet flexible – at times bafflingly so. As Sri Aurobindo observed, the Vedic language is "just and precise and sins rather by economy of phrase than by excess, by over-pregnancy rather than by poverty of sense."

Because of mysterious nature of verses, it may take time to learn from Veda in what way quick healing of wounds can be accomplished by gravity. While, it is established that microgravity slows down the process of healing wounds, in fact, little is known about healing of wounds in hyper-gravity environment. Can a prolonged exposure of damaged tissue in hyper gravity environment accelerate in some way process of healing of wounds? Does the Vedic secret of healing of wounds by gravity lie in adopting a special

method of using microgravity and hypergravity alternatively? Many things are vital in this research. Period of exposure, magnitude of G, direction and orientation of damaged tissue in incidental alternate gravity field are other crucial factors that need to be examined. Thus, Vedic verse provides scope and direction of wounds and bone fractures. Various interesting researches can be conducted to test the truth of Vedic healing of the wounds in many different ways. Rate can be wounded or some of their organs can be partly incised to see how fast alternate environments of microgravity and increased gravity repair their organs. Certainly, improved wound healing will have manifold applications which will benefit civilian medical care, military situations and long - term space flight. We need surgeons like opulent Magavan that would repair any organ, even before, bleeding starts!

Deva Ramananda's has conviction that Vedas contains secret of curing bone fractures by application of gravity. It is not difficult to state that there is natural connection between gravity and bone fractures as the most bone fractures occur because of falling. In other cases osteoporosis is a major cause of fractures which in turn is influenced by the gravity. Weight (force of gravity) plays a crucial role in maintaining bone strength. In space research, while determining physiological effects of weightlessness scientists are aware of bone's deterioration as a result of zero-gravity. This deterioration which is extremely injurious to an astronaut's health occurs when the amount of physical stress on bones decreases. Researches have shown that "stresses (like the stress of bearing a body in the presence of gravity) actually stimulate bone formation and strengthen bones by increasing bone density. When the force gravity is reduced or non-existent as in microgravity environment, bone loss and demineralization have been observed. A significant effect of microgravity is the reduction of an astronaut's bone mineral density and bone strength, which can make his/her bones more susceptible to fracture.

CONCLUSION

It is amazing to note that Vedic Rishis knew more about advanced effects of gravity on human life thousands years ago . Without knowing them how could have they described that "Sandhata sandhi maghava puruvasuriskarta vihantnpunah." In fact, this statement can baffle those scientists who are proud of claiming that they have discovered all biological implications of gravity and studied enough effects of hyper gravity and microgravity on the healings of wounds. Let us hope that more researches in this field will be conducted to arrive at the truth of the Vedic statement.

ARYABHATA

HIS LIFE

Aryabhata was one of the first Indian mathematician and astronomer belonging to the classical age. He was born in 476 BC in Tarenaga, a town in Bihar, India. It is however definite that he travelled to Kusumapara (modern day Patna) for studies and even resided there for some time. It is mentioned in a few places that Aryabhata was the head of the educational institute in Kusumapara. The University of Nalanda had an observatory in its premises so it is hypothesized that Aryabhata was the principal of the university as well. On the other hand some other commentaries mention that he belonged to Kerala.

MATHEMATICAL WORK

Aryabhata wrote many mathematical and astronomical treatises. His chief work was the 'Aryabhatiya' written around 500 AD which was a compilation of mathematics and astronomy. The name of this treatise was not given to it by Aryabhata but by later commentators. A disciple by him called the 'Bhaskara' names it 'Ashmakatantra' meaning 'treatise from the Ashmaka'. This treatise is also referred to as 'Arya-shatas-ashta' which translates to 'Aryabhata's 108'. This is a very literal name because the treatise did in fact consist of 108 verses. The text consists of the 108 verses and 13 introductory verses, and is divided into four pādas or chapters:

1. *Gitikapada*: (13 verses): large units of time—kalpa, manvantra, and yuga—which present a cosmology different from earlier texts such as Lagadha's Vedanga Jyotisha (c. 1st century BCE). There is also a table of sines (jya), given in a single verse. The duration of the planetary revolutions during a mahayuga is given as 4.32 million years.
2. *Ganitapada* (33 verses): covering mensuration (kṣetra vyāvahāra), arithmetic and geometric progressions, gnomon/shadows (shanku-chhAyA), simple, quadratic, simultaneous, and indeterminate equations (kuṭṭaka).
3. *Kalakriyapada* (25 verses): different units of time and a method for determining the positions of planets for a given day, calculations concerning the intercalary month (adhikamAsa), kShaya-tithis, and a seven-day week with names for the days of week.
4. *Golapada* (50 verses): Geometric/trigonometric aspects of the celestial sphere, features of the ecliptic, celestial equator, node, shape of the earth, cause of day and night, rising of zodiacal signs on horizon, etc. In addition, some versions cite a few colophons added at the end, extolling the virtues of the work, etc.

It covers several branches of mathematics such as algebra, arithmetic, plane and spherical trigonometry. Also included in it are theories on continued fractions, sum of power series, sine tables and quadratic equations. Aryabhata worked on the place value system using letters to signify numbers and stating qualities. He also came up with an approximation of pi (π) and area of a triangle. He introduced the concept of sine in his work called 'Ardha-jya' which is translated as 'half-chord'.

ASTRONOMICAL WORK

Aryabhata also did a considerable amount of work in astronomy. He knew that the earth is rotating on an axis around the sun and the moon rotated around it. He also discovered the position of nine planets and stated that these also revolved around the sun. He pointed out the eclipses; both lunar and solar. Aryabhata stated the correct number of days in a year that is 365.

ARYABHATA'S LEGACY

Aryabhata was an immense influence to mathematics and astronomy. Many of his works inspired Arabs more particularly. His astronomical calculations helped form the 'Jalali calendar'. He has been honored in many ways. The first Indian satellite is named after him as 'Aryabhata', so is the lunar crater. An Indian research center is called 'Aryabhata Research Institute of Observational Sciences'.

SHRIPATHI

Shripati, (flourished c. 1045, Rohinikhanda, India), Indian astrologer and mathematician whose astrological writings were particularly influential. Shripati wrote various works in the first astronomer- two of the three branches of astral science (jyotishshastra)-namely, mathematics (including astronomy), horoscopic astrology, and natural astrology (divination).

ASTRONOMICAL WORK

For horoscopic astrology, Shripati wrote Jatakakarmapaddhati ("Way to the Computation of Nativity"), Jyotisharatnamala ("A Jewel Necklace of Astral Science"), and possibly Daivajnavallabha ("A Lover of Fortune-Tellers"). Jyotisharatnamala was modeled on Jyotisharatnakosha, an astrological work by the 8th-century Indian astronomer-astrologer Lalla. The two works ascribed with certainty to Shripati were highly influential on the development of astrology in India, and many commentaries were written on them.

MATHEMATICAL WORK

For the first branch, he wrote Ganitatilaka ("The Ornament of Mathematics") a major work on astronomy in 19 chapters and the astronomical works Siddhantashekhara ("The Crest of Established Doctrines"), Dhikotidakarana ("Procedure Giving Intellectual Climax"), in 1039, a work of twenty verses on solar and lunar eclipses; and Dhruvamanasa ("Permanent Mind") written in 1056, a work of 105 verses on calculating planetary longitudes, eclipses and planetary transits; Siddhantashekhara, a major work on astronomy in 19 chapters is modeled on

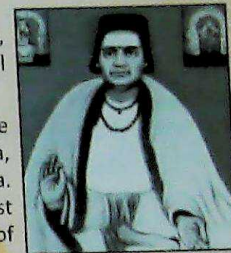

Brahma-sphuta-siddhanta, a work by Brahmagupta (598–c. 665), and includes two chapters on mathematics; as one of the few surviving documents from this period, it sheds important light on the state of Indian algebra between Brahmagupta and Bhaskara II (1114–c. 1185).

BHASKARA I

HIS LIFE

Bhaskara I, (flourished c. 629, possibly Valabhi, near modern Bhavnagar, Saurashtra, India), Indian astronomer and mathematician who helped to disseminate the mathematical work of Aryabhata. He was a 7th-century mathematician.

Little is known about the life of Bhaskara I. In his writings there are clues to possible locations for his life, such as Valabhi, the capital of the Maitraka dynasty, and Ashmaka, a town in Andhra Pradesh and the location of a school of followers of Aryabhata. His astronomical education was given by his father. Bhaskara is considered the most important scholar of Aryabhata's astronomical school. He and Brahmagupta are two of the most renowned Indian mathematicians who made considerable contributions to the study of fractions.

ASTRONOMICAL WORK

His fame rests on three treatises he composed on the works of Aryabhata. Two of these treatises, known today as Mahabhaskariya ("Great Book of Bhaskara") and Laghubhaskariya ("Small Book of Bhaskara"), are astronomical works in verse, while Aryabhatiyabhashya (629) is a prose commentary on the Aryabhatiya of Aryabhata. Bhaskara's works were particularly popular in South India. Planetary longitudes, heliacal rising and setting of the planets, conjunctions among the planets and stars, solar and lunar eclipses, and the phases of the Moon are among the topics Bhaskara discusses in his astronomical treatises.

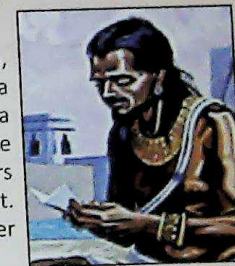

MATHEMATICAL WORK

Bhaskara's probably most important mathematical contribution concerns the representation of numbers in a positional system. He includes a remarkably accurate approximation for the sine function: in modern notation, $\sin x = 4x(180 - x)/(40,500 - x(180 - x))$, where x is in degrees. In his commentary on the Aryabhatiya, Bhaskara explains in detail Aryabhata's method of solving linear equations and provides a number of illustrative astronomical examples. Bhaskara particularly stressed the importance of proving mathematical rules rather than just relying on tradition or expediency. In supporting Aryabhata's approximation to π , Bhaskara criticized the traditional use of Square root of 10 for it (common among Jain mathematicians).

BRAHMAGUPTA

HIS LIFE

Brahmagupta, (born 598—died c. 665, possibly Bhillamala [modern Bhinmal], Rajasthan, India), one of the most accomplished of the ancient Indian astronomers. He also had a profound and direct influence on Islamic and Byzantine astronomy. He lived in Bhillamala (modern Bhinmal) during the reign of the Chapa dynasty ruler, Vyagrahamukha. He was the son of Jishnugupta and was a Shaivite by religion. Even though most scholars assume that Brahmagupta was born in Bhillamala, there is no conclusive evidence for it. However, he lived and worked there for a good part of his life. Prithudaka Svamin, a later commentator, called him Bhillamalacharya, the teacher from Bhillamala.

ASTRONOMICAL WORK

Brahmagupta's fame rests mostly on his Brahma-sphuta-siddhanta (628; "Correctly Established Doctrine of Brahma"), an astronomical work that he wrote. It was translated into Arabic in Baghdad about 771 and had a major impact on Islamic mathematics and astronomy. Late in his life, Brahmagupta wrote Khandakhadyaka ("A Piece Eatable"), an astronomical handbook that employed Aryabhata's system of starting each day at midnight.

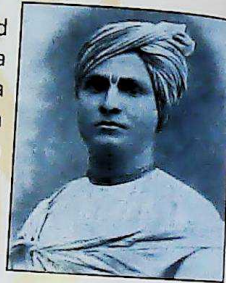

MATHEMATICAL WORK

In addition to expounding on traditional Indian astronomy in his books, Brahmagupta devoted several chapters of Brahma-sphuta-siddhanta to mathematics. In chapters 12 and 18 in particular, he laid the foundations of the two major fields of Indian mathematics, pati-ganita ("mathematics of procedures," or algorithms) and bija-ganita ("mathematics of seeds," or equations), which roughly correspond to arithmetic (including mensuration) and algebra, respectively. Chapter 12 is simply named "Mathematics," probably because the "basic operations," such as arithmetic operations and proportions, and the "practical mathematics," such as mixture and series, treated there occupied the major part of the mathematics of Brahmagupta's milieu. He stressed the importance of these topics as a qualification for a mathematician, or calculator (ganaka). Chapter 18, "Pulverizer," is named after the first topic of the chapter, probably because no particular name for this area (algebra) existed yet.

Among his major accomplishments, Brahmagupta defined zero as the result of subtracting a number from itself and gave rules for arithmetical operations among negative numbers ("debts") and positive numbers ("property"), as well as surds. He also gave partial solutions to certain types of indeterminate equations of the second degree with two unknown variables. Perhaps his most famous result was a formula for the area of a cyclic quadrilateral (a four-sided polygon whose vertices all reside on some circle) and the length of its diagonals in terms of the length of its sides. He also gave a valuable interpolation formula for computing sines.

SHRIDHARA

Sridharacharya (c. 750 CE – c. 930 CE) was an Indian mathematician, Sanskrit pandit and philosopher. He was born in Bhurishrestri (Bhurisristi or Bhurshut) village in South Radha (at present day Hughli) in the 8th Century AD. His father's name was Baladev Acharya and his mother's name was Acchoka bai. He is a highly esteemed Hindu mathematician who wrote several treatises on the two major fields of Indian mathematics, pati-ganita ("mathematics of procedures," or algorithms) and bija-ganita ("mathematics of seeds," or equations).

MATHEMATICAL WORK

All three of Shridhara's extant works—the partially preserved Patiganita, Ganitasara ("Essence of Mathematics"), and Ganitapanchavimashi ("Mathematics in 25 Verses")—belong to pati-ganita, but, according to Bhaskara II (1114–c. 1185), he wrote at least one book on bija-ganita.

Patiganita consists of versified mathematical rules, without proofs, and examples arranged under the two headings parikarman ("basic operations") and vyavahara (applied or "procedural mathematics"). The first part treats arithmetic operations (including the calculation of squares, square roots, cubes, and cubic roots) for both integers and fractions, reductions of fractions, and proportions. The second part presents mixture problems and various series before it breaks off in the midst of rules for plane figures. The topics of the remaining sections are ditches, brick piling, timber sawing, heaped-up grain, shadows, and zero, according to the table of contents given at the beginning of the work.

Shridhara composed Ganitasara and Ganitapanchavimashi as epitomes of a larger work, which may or may not have been Patiganita. He extended Aryabhata's list (c. 499) of names of the first 10 decimal places to 18 places; the new list was inherited by most Hindu mathematicians after him. The topics treated by him included combinations of tastes (combinatorics involving the six tastes of bitter, sour, sweet, salty, astringent, and hot), geometric progressions, geometric expressions of arithmetic progressions (by means of trapeziums called "series figures"), the problem of the "Hundred Fowls," and the "Cistern Problem." He gave the first correct formulas in India for the volume of a sphere and of a truncated cone. He used two approximations for π , the traditional Jain value of Square root of 10 as well as 22/7. Bhaskara II cites Shridhara's rule for quadratic equations that allows two solutions of a single equation, in so far as they are positive, probably from Shridhara's lost work on bija-ganita.

INTERDEPARTMENTAL COMPETITIONS 2018 - 2019

Department of Sanskrit organised interdepartmental competitions on 20th December 2018 at 11.00 a.m. Connections, Painting and Rampwalk were the three events conducted as with theme Ramayana and Mahabharatha. The students were judged by our honourable judges Mrs Mahishasuramardini, Asst. Professor, Department of M.H.R.M and Mrs Nagamalar, Asst. Professor, Department of M.H.R.M. Connections was judged by Dr.C.Yogambal, Asst. Professor, Department of Sanskrit(day) and Dr A. Parvin, Asst. Professor, Department of P.G A and F, and Mrs Harini, Asst. Professor, department of B.com(ISM). Students depicted different characters from Mahabharata and Ramayana and explained about that character during their walk. Students even enacted the role.

GOLDEN JUBILEE CELEBRATIONS (2018-2019) PURANESHU VIGYANAM (पुराणेषुविज्ञानम्)

Department of Sanskrit celebrated the moments of Golden jubilee on 2nd March 2019, the function was inaugurated by our Vice principal Dr Victoria Priscilla. The event was attended by staffs and students from other departments of our college. The students of Sanskrit department displayed and presented various projects in relation with the subject PURANESHU VIGYANAM. Students demonstrated how modern science is elaborately explained in the traditional puranas in the form of stories hidden with concepts. The event started at 9:30 am. Students from other departments participated and got benefited. The celebration was a grand success and poured knowledge on the participants.

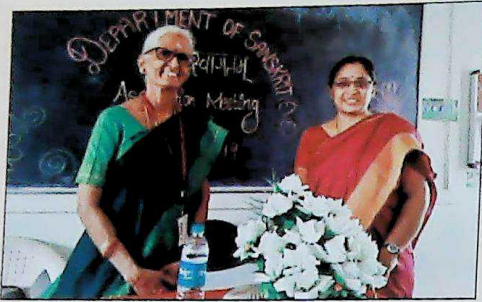

SANSKRIT ASSOCIATION MEETING 2019

Department of Sanskrit conducted Sanskrit association meet for the year 2018-2019 on 13th March 2019, at about 11:30 am. The guest was Mrs.Vijayalakshmi, Head-in-charge, Samskrutha bharathi, Tambaram. The interactive session conducted by Mrs. Vijayalakshmi was wonderful and interesting, she taught how sanskrit can be spoken easily. She taught simple sentences for communicating in Sanskrit. This was an very informative lecture and the students got motivated and benefitted.

The II B.A History and Tourism students visited Tirusulam temple, on part of an awareness programme in the preservation and Conservation of temples, organized by Tamil Nadu State department of Archaeology, Egmore, to celebrate world Heritage day on 18/04/2018.

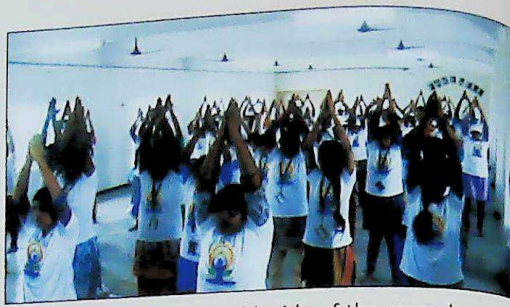

INTERNATIONAL YOGA DAY CELEBRATION

Yoga in daily life is a system of practice consisting of eight levels of development in the areas of physical, mental, social and spiritual health. When the body is physically healthy, the mind is clear, focused and stress is under control. The main goals of yoga in daily life and physical Health, Mental Health, Social Health, Spiritual Health, Self-Realization or realization of divine within us.

Today, yoga is practiced in various forms around the world and continues to grow in popularity. Recognizing its universal appeal, on 11th December 2014, the UNO proclaimed 21st June as the International Day of Yoga by

resolution No.6a/131. The International Day of Yoga aims to raise awareness world wide of the many benefits of practicing yoga.

The Department of History and Tourism, celebrated International Yoga Day along with India Tourism, Govt. of India, Chennai on 20.06.2108. Seminar and Demonstration on yoga was arranged to create awareness among the students. India Tourism provided T-Shirts, Caps, Standees and Yoga mats for the demonstration by the students.

FIELD VISIT

The students of History and Tourism have 'Archaeology' as Elective paper in their fifth semester. In order to gain the practical knowledge about archaeological excavations, a group of 48 students of III B.A history and Tourism accompanied by 2 teachers made a field visit to an archaeological site located at Pattarai Perumputur, Tiruvallur District, Tamilnadu where excavation ia being carried on.

The archaeological site is a habitation site which belongs to the later Sangam period. The historical importance of the place is established by the inscriptions found from the nearby Siva and Vishnu temples. The Director of the site Dr. Baskar explained about the method of excavations conducted and about the artefacts so far found in the site which is yet to be published. Their major findings are a copper coin belonged to chola king Raja Raja I. The coin bore the name of Raja Raja I in Nagari script. He also showed us a pottery shred with Brahmi script. The conical jars, the ring wells (so far the largest one found in Tamil Nadu), the stone tools of microlithic age, Neolithic celts, Iron tools, Red ware pottery, Russet coated pottery, Black and Red ware, Roulette ware, pottery with graffiti marks, beads of different made, shell bangles, ivory comb of small size etc. were other important artefacts found so far in the site.

Sensitization Programme for College Students – Swachh Practices & its importance

Swachh Bharat Mission, basically a cleanliness drive initiated by Ministry of Urban Development, Govt. of India has been implemented from December 2014.

Chief Guest Ms. Durang Bose Mullick addressing the Audience

As a part of this activity, Swachhta Pakhwada is to be observed from 16th to 30th September 2018 by Ministry of Tourism, Government of India.

To implement this scheme in an effective manner, India Tourism is proposing to organize various events and programmes for students, Tourism Stakeholders, Cleaning activities in prominent areas in and around the city and other places.

In order to create awareness on cleanliness among the student community, The Department of History and Tourism, SDNB Vaishnav College For Women(Autonomous) along with India Tourism, Ministry of Tourism, Govt. of India organized a sensitization programme on "Cleanliness & its importance" for the students on 18/09/2018.

The programme is presided over by Ms. Durang Bose Mullick, Senior program associate, Women and tourism, from EQUATIONS, Bangalore. The Principal Dr. R. Geetha introduced the chief Guest Ms. Durang Bose Mullick and Ms. Latitha, Tourism Information Officer. The chief Guest Ms. Durang Bose Mullick delivered a speech on "Cleanliness & its importance" for the students. She insisted on the individual responsibility for keeping our earth clean. The students actively participated in the interactive session. Dr. J.R.Banumathi, Associate professor and Head, Department of History and Tourism, delivered the vote of thanks. The occasion was graced by Vice Principal Dr. R.Valarmathi.

T-shirts and Caps for the participating students were provided by India Tourism.

Workshop on Palaeography

The department conducted a workshop on Palaeography to commemorate the 50th Year Golden Jubilee of our college on 04/10/2018. The workshop was presided over by Dr. R. Sivananthan, Deputy Director, State Department of Archaeology, Government of Tamil Nadu. The workshop was held in two sessions. The first session began with welcome address by Dr. J.R. Banumathi, Associate Professor and Head, Department of History and Tourism. The Chief Guest Dr. R.Sivananthan spoke on the importance of inscriptions, their origin and development through the ages. Mrs. K.Bakyalakshmi, Epigraphist, State Department of Archaeology, Government of Tamil Nadu, took the lead in conducting the technical session in which the students learnt about the development of ancient scripts in India, especially the Brahmi script, Grantham and vattellutu. Also the students were trained in writing Brahmi script. On the whole the workshop benefitted the students by enriching their knowledge on archaic scripts.

The programme came to an end with vote of thanks rendered by Dr. S. Saraswathi.

Vatsala Subramanian, Founder & CEO of Vatsala Tourism Academy,

Guest Lecture on Job Opportunities in Tourism

The department organized a guest lecture on 'Job Opportunities in Tourism Industry' was organized for the benefit of third year students of History and Tourism, English and Economics. Vatsala Subramanian, Founder & CEO of Vatsala Tourism Academy was the chief guest and delivered the lecture.

INTERNSHIP

The Second and Third year students in three different batches were sent for internship. One batch from III B.A. History and Tourism went to Tamil Nadu State department of Archaeology, Egmore on a ten day Internship programme between 14/11/2018 to 23/11/2018.

Two students from III B.A History and Tourism had been sent to Balmer Lawrie & Co Ltd., (A Govt. of India Enterprises) to get hands on training in the Travel industry for one month between 19/11/2018 and 18/12/2018.

Students from II B.A. History and Tourism went to India Tourism for internship (from 14/11/2018 to 23/11/2018) to know about tourism industry

STUDY TOUR TO HYDERABAD

The students of III B.A. History and Tourism were taken on a three day study tour (from 1/2/2019 to 4/2/2019) to Hyderabad and visited Golconda Fort, Salar Jung Museum, Birla Mandir and Charminar.

On February 5th 2019, Mr.Dexter Bad Bear, an International Story-teller gave a talk on 'Native American Story-telling'. We also organised a guest lecture on 'Postcolonial Literature' on 14th March, 2019. Mrs.V.Rajalakshmi, Senior Head, Department of English at Kumararani Meena Muthiah College of Arts and Science was the resource person. Our students were immensely benefited from the sessions.

Mr. Dexter Bad Bear narrating a story in the 'Native American Story-telling' session

“All of us do not have equal talent. But all of us have an equal opportunity to develop our talents”

We hope our students will enhance their creativity and potential to progress towards excellence.

ENGLISH DEBATE CLUB

English Debate Club (Self-Support) motivated students to participate in various competitions:

Students made active participation to expose their intelligence and eloquence in language.

On 27th August 2018 extempore was conducted, 15 students participated in the event and they spoke on topics which were challenging and thought provoking, Ms. Hemamalini, Assistant Professor, Department of English was the Judge for the event, she appreciated the participants for their active participation.

On 28th August 2018, 55 fiction was conducted and 35 students actively participated in the event under the challenging topic “I always try to achieve but something hinders me from doing that”. Mrs. A. Arundhati Assistant Professor, Head Department of English was the Judge for the event. By this way the English Debate club endeavors to honor the talents of the students by propelling them towards excellence.

11th October 2018

CHIEF GUEST: Dr. S.H. SUKUMAR KUMAR

DR. S.H. SUKUMAR KUMAR gave clear idea about the various concepts in Algebra and Real Analysis. The session also aimed to motivate the students to take up exams like IIT-JAM and UGC-CSIR NET etc.

CHIEF GUEST : DR. R. RAJAJI

DR. R. RAJAJI demonstrated the applications of the MATLAB. The session aimed at introducing basic concepts of MATLAB, its applications and uses. The session also gave idea about how MATLAB can be applied to solve Mathematical concepts efficiently. He also shared his ideas about various financial support offered by NBHM, IMSc,TIFR etc.

DEPARTMENT OF STATISTICS

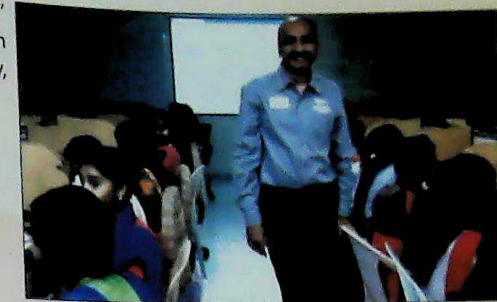

Association activities for the academic year 2018-2019 began with the interdepartmental activities on 30/08/2018. The following events were conducted

S.No.	Date	Event	I Prize	II Prize	III Prize	Judges
1.	30/8/2018	Collage	A. Saraswathi & M. Payal, III B.A. Economics	R.Pooja & S.Keerthana, III B.Com(ISM)	B.Varsha & N.Nithya/ II B.Com(General)	Ms.V Ramya

An International Workshop on "Contemporary Statistics" was organised on 12/12/2018 and the resource person was Prof N. Balakrishnan, Mc Master University, ONTARIO, Canada.

The department conducted a one workshop on "Enjoyable Learning of Programming" on 14/12/2018 and the resource person was Dr. JeyVeerasamy, Director, Centre of Computer Science Education, US DALLAS

DEPARTMENT OF PHYSICS

VAISH PHYZ

Every year, it has been the decorum of our College to encourage all the departments within the college premises to organize workshop, seminar, conferences and interdepartmental competitive events for students. For this academic year 2018-19, the Physics Association marked the beginning of organizing interdepartmental competitive events through 'VAISH-PHYZ 2K18' on 27th August, 2018.

OBJECTIVES OF VAISH-PHYZ 2K18

- To bring harmony and joy among the students of various departments.
- To make concepts of physics easy and perceptible for the students of other fields.
- To improve the social and analytical skills of students.

It was also aimed at improving logical and perspective thinking of students.

INTER DEPARTMENTAL EVENTS

'VAISH-PHYZ2k18 was an interdepartmental competitive event hosted by the department. It focused on bringing out the multifaceted abilities of students from the other departments through physics. Students from all the departments actively participated in all the events. Mrs. N. Aruna, Head of the Department, PG Department of Journalism and communication was invited to judge the participants from all the events.

As a part of 'VAISH-PHYZ2k18, the following events and prize winners are given below:

S.No.	Event	III BSc Maths	II BSc PBPBT
1.	Connections	M. Bhargavi, S. Ayshwaria S. SalmaParveen	M.Rajalakshmi, G.DivyaBharathi F.Ummuhajara, Y.Sharanya
2.	Pot Pourri	II BSc PBPBT Vaishali A.S, Hema.S, Neeraja.S Kamakshi.S	I BSc Computer Science Shreemathi.A, Akshaya.V.R Kalaivani.G, Roopa.M
3.	Channel Surfing	II BSc Statistics Vaijayanthi, Prathiba, Mathangi Poorna, Roshini	I BSc History Swetha, Subashini, Jayalakshmi, Keerthana, Rakshaya
4.	Logo Creation	III BSc English Nivedha, Hasima, Janani	I BSc Statistics Sreevidhya, Shobhana, Kavya

A Workshop on "Characterization Analysis and Data Interpretation Using Origin Software"

Our Principal felicitated our guest with a memento and congratulated our Ms. S. Aishwarya Lakshmi, I-B.Sc., student who won first place in "Talk your way to Japan" a speech contest held on 2nd September 2018 in

Japanese which was organized by ABK-AOTS DOSOKAI and was selected as Japanese ambassador of India. The guest of the day was introduced by our beloved Head of the Department, Mrs. A. Rajeswari.

Date : 12th of October 2018

Speaker : **Dr. S. Gnanam**,
Assistant Professor,
Department of Physics, School of Basic Sciences,
VELS Institute of Science, Technology & Advanced Studies (VISTAS),
Pallavaram, Chennai- 600 117.

Participants : UG,PG students and Research scholars.

Session: I

Seminar : "Investigation and Characterization of Nanomaterials"

Dr. S. Gnanam explained the basic concepts and principles of Investigation and Characterization of Nanomaterials". He elaborated various techniques and methods in characterization of materials like XRD, SEM, TEM, FTIR, Uy etc. This helped the UG students to have a basic idea on characterization and to widen their knowledge on the respective areas. The session was very interactive.

Session: II

Hands on training : "Data Analysis and Interpretation using Origin Software"

A hand on training program was arranged in our college premises. Students were taught to install ORIGIN 8.0 by their own. A brief demonstration was given about the software which includes its utility, easy access, and adaptive mode to install in any configuration system. He taught the students to analyze the data and interpret the result using the software. The students were spellbound by knowing new area of research at the end of the session.

STUDENTS ACHIEVEMENT:

STUDENTS PARTICIPATED/PRESENTED IN NATIONAL AND INTERNATIONAL WORKSHOP/CONFERENCES/ SYMPOSIUM:

- Ms. S. Aishwarya Lakshmi, I- B.Sc Physics, won first place in "Talk your way to Japan" a speech contest held on 2nd September 2018 in Japanese which was organized by ABK-AOTS DOSOKAI and was selected as Japanese ambassador of India
- Ms. K. V. Brindha, III B.Sc Physics has presented a paper on "Fourier Transform in signal processing" in the International Conferences on Computing Sciences" (ICCS 2018-2019) conducted during 16-17th, November 2018 at Loyola Research institute of Mathematics and Computing Sciences (LIMCOS), Loyola College, Chennai.
- Ms. C. Gajalaxmi, III B.Sc Physics has presented a paper on "Artificial Neural Network" in the International Conferences on Computing Sciences (ICCS 2018-2019) conducted during 16-17th, November 2018 at Loyola Research institute of Mathematics and Computing Sciences (LIMCOS), Loyola College, Chennai.
- Ms. L. Harini, III B.Sc Physics has presented a paper on " Green Synthesis and structural studies of Copper Oxide nanoparticles using Ricinus Communis leaf extract" in the National Conference on Recent advances in Chemistry(RAC-19) conducted during 4th, January 2019 at Anna University, Chennai.
- Ms. L. Harini, III B.Sc Physics has presented a paper on " Green Synthesis and structural studies of Cadmium Oxide nanoparticles using Ricinus Communis leaf extract" in the International Workshop on " Recent Advances in Nanotechnology and Applications(RANA-2018) conducted during 7-8th, September 2018 at Academy of Maritime Education and Training(AMET), Chennai.
- Ms. Vedam Thanvi Sree Nithya, III B.Sc Physics has presented a paper on " Carbon Nanotubes: Properties, Synthesis, Applications and Toxicity- A Review" in the International Workshop on " Recent Advances in Nanotechnology and Applications(RANA-2018) conducted during 7-8th, September 2018 at Academy of Maritime Education and Training(AMET), Chennai.

- Ms. Vaishali and Poornima, IIB.Sc Physics presented a poster on "Synthesis and characterisation of ZnO and CdO nanoparticles" in the "International conference on Emerging materials and model on 9th January 2019 at K. S. Rangasamy College of Arts and Science(Autonomous)Thiruchengode.
- Ms. K.Shobhavathi , M.C. Mahalaxmi , Poonamsubuthi , S.V. Thoshiba , P.C. Arunamalya, II B.Sc Physics has successfully completed the Astrobiology workshop " Life In Space in "International Capsule Workshop" conducted on 17th March 2019 at Indian Astrobiology Research Centre, Teynampet.
- Ms. S. Aishwarya Lakshmi, I- B.Sc Physics, won third place in the "All India Japanese language speech contest" conducted by Mombusho scholars association of India in co-operation with Japan Foundation and Japan information center in New Delhi, on 16th March 2019.

DEPARTMENT OF CHEMISTRY CHEMUTSAV

The Department of Chemistry inaugurated the CHEMUTSAV '18 on 28.08.2018 by conducting the various inter-departmental activities. The association of our department conducted CHEM TALK to bring out the knowledge of students in chemistry. Adulteration, Air pollution, Plastics and Chemistry in Everyday Life were chosen as topics and given on spot. The students explored their knowledge on these topics. Dr. P. Beena, Assistant Professor, Department of English judged the students. CHEM QUIZ was conducted for the students to pop their acquaintance in chemistry. Dr. P. Koteeswari, Assistant Professor, Department of Physics lead the competition. The competition was focussed on connective intelligence of the students. It was a fun game where the students correlated the clue pictures with the answers. It invoked the familiarity in chemistry. Dr. C. B. Nirmala, Assistant Professor, Department of Plant Biology and Plant Biotechnology lead the competition. The winners were honoured.

There is an increasing recognition of the important role education can play in developing entrepreneurial mind-sets, attitudes and societies and improving young people's employability overall. Effective youth entrepreneurship education prepares young people to be responsible, enterprising individuals who become entrepreneurs or entrepreneurial thinkers and contribute to economic development and sustainable communities. Facilitating young people to earn a living through entrepreneurship can make a crucial contribution to poverty reduction and economic growth.

Department of Chemistry conducted a one-day workshop - hands-on training on Entrepreneurship Development Programme in Chemistry on 16th October 2018 by Prof. N. Elangovan, Assistant Professor, Department of Chemistry, A.M. Jain College, Meenambakkam, Chennai, Science academy of India, R&D Lab Consultant, JAM coaching. The students of Chemistry, Physics and PBPBT participated in the event. Students were trained to prepare Soaps, Detergents and Floor cleaners from natural and artificial ingredients.

Student Achievements

- Ajeetha S., II B.Sc., Chemistry won II Prize in short film on "Go Green" in St. Brittos's College, held on 31-August-2018
- Abinaya S. & Sowmya R., II B.Sc. Chemistry has presented a poster on "Are we Bin? Ocean!" in D.G. Vaishnav College held on 12-September 2018 and won the II Prize.
- HariPriya V. & Sowmya R., I B.Sc., Chemistry has presented a poster on "Are we Bin? Ocean!" in D.G. Vaishnav College held on 12-September 2018.
- Sowmya R., I B.Sc., Chemistry has participated in a painting competition conducted by Nobel Laureate Mother Teresa Charitable Trust, Chennai to mark Mother Teresa's 108th Birthday celebration held on 13-September-2018 and won the Second prize with a cash award of Rs. 5000/-.
- Janani M., Keerthana S. and Saveetha V. of III B.Sc. Chemistry won II Prize in Rangoli, Carbonival '18, conducted by Department of Chemistry, Loyola College on 14.12.2018.
- Bhavithra S of III B.Sc. Chemistry won III Prize in Just A Minute, Carbonival '18 conducted by Department of Chemistry, Loyola College on 14.12.2018.
- Kavitha S. and Sowmya R. of II B.Sc. Chemistry won III Prize in Poster Making, Carbonival '18 conducted by Department of Chemistry, Loyola College on 14.12.2018.
- Tejaswini V, Saiathreya K, Ambika M, PriyaDevi J, Keerhthana S, Bharathi R, Subashini A, Janani M, Sandhiya S, Shenbagam S of III B.Sc., Chemistry attended RSC Lecture on "150 years of the Periodic Table: The elements of life and Medicine", during the celebrations of International year of Periodic Table-2019 on 6th February 2019 at Stella Maris College, Chennai 86.
- Pavithra G. And Saveetha V. of III B.Sc., Chemistry won I Prize in Cooking without Fire, Newtron '19 conducted by Department of Chemistry, New College on 12.02.2019.
- Kavitha S. and Sowmya R. of II B.Sc. Chemistry won III Prize in Chem Draw, Newtron '19 conducted by Department of Chemistry, New College on 12.02.2019.
- Madhumitha K of III B.Sc. Chemistry won III Prize in Chem Jam, Newtron '19 conducted by Department of Chemistry, New College on 12.02.2019.
- Vidhya Devi G. and Priya Devi J. of III B.Sc., Chemistry won III Prize in UG Quiz, Aroma '19 conducted by Department of Chemistry, Madras Christian College (Autonomous) on 27.02.2019.
- Suma K of III B.Sc. Chemistry won III Prize in Chem Sketch, Aroma '19 conducted by Department of Chemistry, Madras Christian College (Autonomous) on 27.02.2019.
- The students of III B.Sc. Chemistry have participated in Awareness Programme on Careers in Chemistry conducted by Department of Chemistry, B.S. Abdur Rahman Crescent College, held on 25.02.2019.

INDUSTRIAL VISIT

Industrial visits offer a great source to gain practical knowledge. It is considered as a part of college curriculum and objectives of industrial visit is to provide students an insight regarding internal working of companies. Students can observe and learn as to how theatrical concepts are put to into action, thereby aiding their practical learning. Students are exposed to real working environment and shown how things are done in an organisation. Thereafter, an industrial visit was organised for final year undergraduate students on 12th March 2019 to visit HINDUSTAN COCA COLA BEVERAGES PVT LTD in Vellavedu, Chennai. Chemistry plays an important role in most of the industrial processes. It provided students an opportunity to learn practically through interaction, working methods and employment practices. Visiting a company gives them a practical perspective on the world of work.

DEPARTMENT OF PLANT BIOLOGY AND PLANT BIO TECHNOLOGY

MADHULIKA

Madhulika 2018-2019 was organised by the UG and PG Departments of Plant Biology and Plant Biotechnology on 7th September 2018.

The events conducted by the UG Department were Bio-greeting, Biolyrics, Vegetable Carving and Miss. Madhulika. The following were the Events and Winner, and the winners are as follows:

1. BIO-GREETINGS

- Winners
- I prize - I. Issakki Rajam.
 - II Prize - G. Jayashree

Judges : Dr. S. Sughanthi (Economica) and Dr. C.B.Nirmala (PBPB) (Image.1)

2. VEGETABLE CARVING

- Winners
- I Prize - R. Pavithara, A. Sandhiya. II B.Com General.
 - II Prize - D. Akshaya, T. Deepika. III B.Sc Statistics.
 - III Prize - M. Shamim S. Tilaga II B.Com General

Judges : Mrs. S.Padmapiya (Chemistry) and Dr. S.Subhashini (PBPB)

3. MISS. MADHULIKA

- Winners
- I Prize - M. Rupanandhini III B.Sc. PBPB
 - II Prize - S.Nithyasri
 - III Prize - S.Swathi
 - IV Prize - K.A. Rashitha

Judges : Mrs. K.Arulmeha Ponradha (PBPB) and Dr. K.Ramani (PBPB)

The events conducted by the PG department were Poster Presentation, Art from Waste (using plant material) and Miss. Madhulika.

1. Poster presentation

- Winner : V. Shanmugapriya
- Runners : (1) Hemalatha. A
(2) D. Priyadarshini
- Judges : Dr.Suguna(Chemistry) and Dr. L. Sheeja.

2. Art from Waste (using plant material)

- Winner : Anupriya and D. Suchitra (M.Com A&F)
- Runners : (1) M. Priyadarshini & D. Suchitra (II MSc Biostats)
(2) M. Jenifer and G. Haritha (II Msc PBPBT)
- Judges : Dr. Suguna(Chemistry) and Dr. L. Sheeja (PBPBT).

3. Miss. Madhulika
- Winner : K. Kamakshi (II MSc. PBPBT)
- Runners : (1) L. Nandhini (I MSc. PBPBT)
(2) Muthulakshmi (II Msc PBPBT)
- Judges : Dr. S. Kamakshi (A&F) and Dr. D. Lakshmi (PBPBT).

		II Year 1. S. NEERAJA	Vegetable Carving	II Prize
		2. F. UMMU HAJARA		

G. Bhavatarini and S. Nithya shree of III BSc., Plant Biology and Plant Biotechnology attended workshop on "Extraction of Natural colourant as value added product from Spirulina biomass for social and economic empowerment for final year graduate students" during 19th February to 21st February 2019 at Madras Christian College.

TERRACE GARDENING" - AWARENESS FIELD TRIP

An awareness program on "Terrace Gardening" was arranged towards which the staff and students visited "Home Exnora: a zero waste" model" maintained by Mr. Indrakumar at Pammal and "D' Organics Garden shoppee" maintained by Mrs. Jayashree at Perungudi. Final year students of Plant Biology and Plant Biotechnology were

motivated to create their own roof garden to cultivate Vegetables, Medicinal plants, Vermicompost. They were also taught about recycling of septic tank water for irrigation purpose.

WORKSHOP ON PAPER MAKING

A novel and simple paper making technique was demonstrated by Dr. M.Vishnuvarthanan, Teaching fellow, Department of Printing Technology, Anna University, Chennai. He spoke on the processing of wood and plant materials to produce paper by following pulping, bleaching and using paper machine. He has successfully produced paper from green plants and also has incorporated silver nano particles in it, in order to make it antimicrobial. The workshop was attended by about 250 students and ten staff.

On 11th and 12th September, 2018, six students of Plant Biology and Plant Biotechnology Department participated in International Conference on Emerging Areas in Biotechnology for Human Welfare and Bioentrepreneurship (ICEBHE-2018) Organized by School of Life Sciences

B. S. Abdur Rahman Crescent Institute of Science and Technology. Among them three students won best paper presentation award.

- Nandhini A - B.Sc., student of 2017-2018 batch
- Bhuwaneshwari K - II year M.Sc., student of 2017 – 2019 batch
- Kowsalya G - M.Phil., student of 2017-2018 batch

1. PHYTOCHEMICAL SCREENING AND CHARACTERIZATION OF SILVERNANOPARTICLES PRODUCED BY OYSTER MUSHROOM (PLEUROTUSFLORIDA) (POSTER PRESENTATION)

Nandhini A, Saritha B, Navitha N and Siva R

2. PHOTOCATALYTIC DYE DEGRADATION EFFICIENCY OF SILVER NANOPARTICLE BIOSYNTHEZIZED FROM EXOPOLYSACCHARIDE PRODUCED FROM SEAWEED ASSOCIATED BACTERIA (ORAL PRESENTATION)

Dr. Sheeja L, M. Gowthami and K.Bhuwaneshwari

3. CULTIVATION, PHYTOCHEMICAL SCREENING AND CYTOTOXICITY POTENTIAL AGAINST CANCER CELL LINES OF MILK MUSHROOM (CALOCYBE INDICA) (ORAL PRESENTATION)

Kowsalya G. and Siva R.

(THE ABOVE SELECTED PAPERS WILL BE PEER-REVIEWED AND PUBLISHED IN SCOPUS INDEXED JOURNALS.)

The following are the other papers presented in the above conference from the Department.

4. STUDIES ON PHYTOCHEMICAL AND ANTIBACTERIAL ACTIVITY OF ETHANOLIC EXTRACTS OF ALLIUM CEPA L, MENTHA ARVESIS L., AND MIRABILIS JALAPA L. (POSTER PRESENTATION)

Aathira K, Monisha L, Nanadhini S, Gomathi V and Subashini S

5. STUDY OF MORPHOLOGICAL CHARACTERS OF ROOT NODULES OF CLITORIA TERNATEA L., (FABACEAE) Kalpana S and Ramani K (POSTER PRESENTATION)

6. GREEN SYNTHESIS OF SILVER NANOPARTICLES, CHARACTERIZATION AND ANTIBACTERIAL ACTIVITY OF ASPARAGUS RACEMOSUS (ORAL PRESENTATION) Sandhiya .R, Seranmadevi .M and Lakshmi .D

On 25th – 26th October, 2018 two of our students participated in the DST-PURSE workshop on “Basics of Cell Culture Techniques” organized by the Department of Biochemistry, University of Madras, Guindy Campus.

On 7th and 8th February, 2019 ten students of M.Sc Plant Biology and Plant Biotechnology participated in National Symposium on Natural Products for Human Health Organized by Entomology Research Institute, Loyola College, Chennai

On 29th August, 2018, Dr. K. Ramani and K. Arulmeha Ponradha of the department presented research paper in National Conference on Biotechnological Advances in Biomedical, Environmental and Agricultural Technology organized by Department of Biotechnology, Hindustan College of Arts and Science, Padur, Kelambakkam.

1. Greens of Vaishnav (Oral Presentation) Dr. K. Ramani
2. Algal Flora of Shri Nithyakalyaniammam Temple Tank of Kadayam, Tirunelveli District, Tamil Nadu (Poster Presentation) K. Arulmeha Ponradha

Mrs. Arulmeha Ponradha, K, Dr. Nirmala C.B, Dr. Siva.R, Dr. Deepa Persis attended a one day International Conference on “Technological Advances in Agricultural, Animal and Medical Sciences for Better Quality of Life” held on 02 March 2018 at Guru Nanak College Velachery, Chennai, organized by the Departments of Advanced Zoology & Biotechnology, Plant Biology & Plant Biotechnology, Biotechnology & G.S. Gill Research Institute.

DEPARTMENT OF COMPUTER SCIENCE

The following association activities carried by the department of computer science / computer applications during the academic year

- 1) Seminar on "Web Page Creation" for the III B.Sc students of Day was conducted on 10/08/2018. Mr. A. Kasim Basith and Ms. Jenifer from Opportunity InfoTech were the resource persons for the seminar.

- 2) The UG and PG Department of Computer Science and Computer Applications conducted the Inter-departmental competitions on 29/08/2018. The following events were conducted for the students in our college-QUIZZLES, BRAINETIC, SUDOKU, and TECHQUIZ. There was an enthusiastic participation of many students from various departments.

- 3) Seminar on "UI/UX Technologies and opportunities" was conducted for the III year B.Sc students of Day on 18/12/2018. Mr.J.Jeyaraman, Lecturer in ICAT Design & Media College, UI Department, was the resource person.
- 4) Orientation programme on "Selenium Software Testing Tool" was conducted for the III year students of day and evening on 1/2/2019. Mr. X Stephen Moses Dinakaran, HR, Academic Interface Programme, TCS & Mr.Sasirajan, Selenium Trainer, TCS were the resource person.
- 5) Inter Collegiate competition under the banner e-INFORMATIK was conducted by the UG & PG Department of Computer Science and Application 20/02/2019. Mr. Mathivanan Elangovan, Vice President & Head, Learning and Development, SIFY Technologies inaugurated the e-INFORMATIK association function. Students from more than 25 colleges participated in various events like Techfest, Connexion, Brainstorm, Poster Designing, Mix 'N' Match, e-Junk Modeling held by our department and won several prizes. The Overall Trophy was bagged by Women's Christian College.
- 6) Orientation Programme on Data Analytics for the B.Sc., BCA and M.Sc Computer Science students of Day and Evening College was conducted on 20/2/2019 and the resource person was Dr.V.P.NanthiniSundar, Data Science Consultant.
- 7) Power Seminar on "Digital Divide and Role of Social Media" was conducted by the Department of the computer Science and ICT Academy for B.Sc Computer Science, B.C.A, B.Sc Visual Communication and B.COM (ISM). Mrs.Mubeen Sulthana, Sr.Techinacal Trainer, HTC Global Services, Leslie J Praveen Kumar, Manager HR, Allsec Technologies Ltd and Avinash R Praveen Kumar, HR, Infosys, were the resource persons.

DEPARTMENT OF HOME SCIENCE

The Department of Home Science ever since its inception has been organizing various thought provoking, informative seminars, workshops, outreach programs and association events. As this year marks the Gold Jubilee Celebration of our reputed institution, the Department has been focusing on organizing such events during the academic year 2018-2019. The first event for the year was a skill development training program in Garment construction, which was organized on the 26th and 30th July, 2018. We had invited three, well informed resource people, for conducting the sessions.

National Nutrition Week was observed throughout the country from 1st to 7th September. The Department has been giving significance to the celebration of Nutrition Week every year. The theme chosen for this year's celebration was "EMI for Health", which is an abbreviation for, Eat right, Move more and Instill happiness. As part of the celebrations various competitions and a one day seminar were organized on topics pertaining to the core theme on the 3rd, 4th and 6th of September, 2018.

The concept of "Better food for better life", was presented by twenty seven students in the form of colourful rangoli. In order to promote healthy eating, the theme of "Healthy & traditional millet recipes - Snacks & Desserts", was given to the students, it was very well understood, prepared and presented by twenty one students. Posters are the logical and attractive way of communicating the core idea of "Eat right, Move more, Instill happiness", the thirteen participants had conveyed their ideas through their posters.

A logo is an effective way of conveying the message of "Promoting Balanced Diet", which was done with the help of twenty students. Fifteen students had participated in the short film making competitions, to convey the message of "Five solutions to safe food". Each of the competitions organized had four winners. Students from the various departments of the college had actively participated in all the competitions that were organized.

Combined with physical activity, one's diet can help them reach and maintain a healthy weight, reduce the risk of developing chronic diseases, and promote overall health. With this ideology in mind, the one day seminar that was organized on the 6th of September, 2018, had the concept of "Health for all- A Holistic Approach".

Followed by the first association event, the Department had a one day workshop on Pattern Drafting on the 20th of September, 2018, by two technical personnel's, by which our students were able to gain basic knowledge on fabric construction. On identifying our students regard for food safety and also because it has gained a lot of attention in the recent times, the Department had arranged for a workshop with FSSAI official's on the topic, "Detection of Food Adulteration", on the 9th of January, 2019.

The Department is also offering certificate courses on Interior decoration, with a strength of forty nine students from other departments and Food Preservation courses, for the final year students of our department. As part of the curriculum on Interior Decoration and floral arrangement, on 22.02.2019, the students had a demonstration of distinct flower arrangements.

The Nutrifiesta 2k19 held on the 25th of February, 2019 has become one such remarkable event in the history of the Department. Innovative and interesting topics were provided through the five different events to test the knowledge and skills of the participants. The intercollegiate events held as part of Nutrifiesta, had witnessed the active participation of eight colleges, with total participants strength of fifty two. Two events were organized online which were namely, poster making and meme creation. Poster making had covered the aspect of the "Two poles of malnutrition", whereas the concept of "Zero Food Waste" was given emphasis through meme creation. Jingles, Block and Tackle and Cookery were the three events that were organized on the faithful day.

Each of these competitions was given a unique topic, which helped cover all the aspects of general nutrition. Out of the fifty two participants, fifteen emerged victorious in the five events that were organized. They were rewarded with prizes and certificate by Celebrity Chef Dr.Damodaran, on the event held on 27th of February, 2019.

The Department of Home Science has always been focused on making contributions to the society in which we dwell in, by disseminating nutrition information whenever and wherever possible. With this in mind the students on the 26th of February, 2019, had also involved themselves in a Community Nutrition Program aimed at kindergarten children in a neighbouring school. The concept of eating healthy has been lost due to rapid urbanization, industrialization which has led to the rise of both communicable and non-communicable diseases. On realizing the need to address this situation, the Department had conceived the idea of conveying the message of "Food as medicine", as Hippocrates rightly said and hence had organized the second major event of "Cooking with Celebrity Chef Damodaran", as part of Golden Jubilee Celebration of our reputed institution. The event was held on the 27th of February, 2019 at the mini auditorium of our college.

"Cooking is an art form, a creative thing", and we were fortunate enough to have amongst us the Guinness record holder Celebrity Dr. Chef K. Damodaran for our event. The gripping key note address by our Guest of honour, Dr.Damodaran sir, had imprinted the ideas of the need to avoid junk foods, and the importance of breakfast on the young minds present in the crowd. Justice Basheer Ahmed Sayeed College for Women had won the overall trophy.

The next session was the cooking demonstration by the Celebrity Chef. The chef had taught us simple, innovative recipes by which everyone was fascinated. Staffs from the various departments of our college were also present during the presentation. He had demonstrated eight healthy and quick recipes. The day turned out to be exceptionally well. On the whole, the distinct events organized in this academic years will remain etched in the heart of everyone.

COLLEGE HOSTEL

Hallmark of a good institution is its ability to provide excellent amenities besides quality education. The Hostel buildings are constructed in spacious green area which provides confidence in favour of learning. All the amenities are well provided for a healthy living condition.

The amenities available for the hostellers include spacious, airy and bright, well ventilated rooms with windows and curtains, broad corridors, drinking water plant facility, daily sanitised closets and bath rooms with running water facility. Mineral water supply is given to each floor with coolers.

This academic year, in the hostel with the rapid expansion of the infrastructure, was able to accommodate 210 under graduates and 14 post graduate students. Students from 25 districts of Tamilnadu and 9 different states of India like Punjab, Harayana, Delhi, Jharkhand, Gujarat, Andhra Pradesh, Bangladesh, Kerala, and also from the Union Territory Pondicherry and Andaman & Nichobar islands are all staying. The hostel has a few overseas students from Qatar.

There are 55 rooms with 3 seater, 4 seater, few with AC and attached bath rooms, non AC with attached bathrooms and also 4 very spacious dormitories with bunk cots are available for student's accommodation. All the rooms are equipped with infrastructure like cots, study tables, chairs cupboards, mirror, mattress with pillow and bed spreads, shoe stand, cloth stand, dustbin, etc.. Apart from student's rooms, spacious computer lab containing 25 computers with net connectivity, study hall and audio visual hall are there. The large dinning hall can accommodate 50 students at a time.

On the 2nd Floor of the hostel building, 20 rooms were constructed in May 2018 to meet the demands of more students seeking the Hostel facility inside the campus itself. Third floor is under construction, it will be ready by God's grace in June 2019.

The hostel administration is maintained by the Chairman and the Management Members.

On 5th July Ganapathy Homum and Auish Homum were performed in the newly constructed second floor hall.

"Prayer makes a man perfect". The day begins in the morning with divine presence with a prayer and Attendance. The names of the birthday babies are read out and they are greeted with affection and divine blessings are invoked every day. The study hour starts after the evening Prayer and Attendance.

Monitored study hours of the students are observed from Monday to Friday. The hostel provides a serene atmosphere and clean surroundings to the students for their study and stay.

Hostel Day is one of the events in the college which is celebrated for the people residing in the hostel. The hostel has crossed another important and successful year from its inception in 2011.

On 14th August 2019, fresher's eve was celebrated by the II and III years. By welcoming the freshers they made them to feel at ease in the hostel. The freshers were welcomed by the seniors through cultural programs like music, dance and skit, which created the feelings of oneness among them. It is indeed a spring board for many to begin well. The homely and the family atmosphere is cherished among the inmates through mutual understanding and moral support to each other.

Hostel inmates celebrated Vijaya Dasami festival on 19th October 2018. On 6th November 2018 Diwali was celebrated. We celebrated Karthigai Deepam on 23rd November 2018. Pongal day was celebrated on 28th January 2019.

In August 3rd 2018, indirect election was held in the hostel for the post of President and Vice President. Ms. Aishwarya of III B.Com and Ms. Rajalakshmi Geetha of I B.Sc (CS) were elected as President and vice president. They act as liaison between the students and the administration. To have effective functioning of the hostel, as well as to involve students in taking up various responsibilities, few committees like Food, Discipline, study, cleanliness, cultural and decoration have been formed. It creates an ample opportunity for them to develop their full potential.

Food committee gives periodic suggestion regarding the menu. Discipline committee and floor representatives encourage the students to do, what is expected of them, in time and place.

It is important that students prepare themselves before hand for life in a hostel. Self discipline and sincerity are the two major attributes that students need to learn. Maintaining personal hygiene is very important when living in a hostel.

In the month of August the library has been shifted to 1st floor. Nearly 500 books on various subjects are displayed in an in-built shelf for the use of hostellers. These collections of book are very useful for the students. Many students are utilizing the library to enhance their knowledge.

The hostel subscribed for daily newspapers like "The Hindu", "Times of India" and "Thinathanthi", apart from free issue of "Deccan chronicle".

Need-based talks and activities like counselling and Yoga were arranged to help the students to lead a better and healthier life.

COUNSELLOR

Counselling is a process that occurs when a client and counsellor sit aside to expose difficulties like stress and emotion. Counselling helps to get relieved from all stressful, emotional situations and improves confidence level. Growth, adjustment, mutual understanding, realization and solving problems are the importance of counselling. Mrs Esther Sugi worked for 4 months as a full time counsellor twice a week to guide the students. Now Mrs Caroline Mario has taken in charge as full time counsellor.

YOGA

Yoga classes were started in the months of September 2018. Mrs Thiruselvi is taking classes for hostel students. Yoga means union, joining body, mind and soul. It brings a balance in overall personality of an individual. Yoga benefits in three dimensions of student's life, physical emotional and academic performances. It increases ability to concentrate and learn. It imposes morality and discipline and brings positive energy transformation. Yoga guides students of how to make healthy choices in their life.

FITNESS

Some physical fitness equipments were installed in a separate place. Students are allowed to do physical exercises. Fitness exercise increases the growth and development, prevents ageing and strengthens the muscles and cardio vascular system. Physical exercise is a bodily activity; this enhances fitness and overall health and wellness.

YOU & I SERVICE

Withya shree.S of III B.Sc PB & PBT and Vaishali.S of II B.Com belonging to the hostel has been volunteering to teach English to the kids of underprivileged at this Saibaba Gurukulam centre at Pozhichalur Pallavaram under recruits volunteers every year. Education can be a game changer in many lives. By providing education they are making these children face the reality of the world with their head held high with pride and confidence. Nithyashree.S has been volunteering since 2017 (for two years) and was selected for the Annual leadership summit during the first year and has taken up the leadership role as a 'class head' at the same centre. Vaishali.S has been volunteering for a year and has received various standard affirmations for her untiring service. The organisation serves to be one of the best peace providing centres and also has got a good reputation.

ONE DAY TOUR

On 17th December 2018 a "one day trip" to theme park Queensland, was arranged. 5 staff members accompanied 105 students for the trip.

MEDICAL CHECK

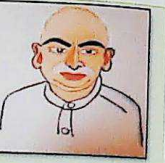

The hostel students underwent a medical check up on 25th March 2019 carried out by the Doctors and staff of Apollo Shine Clinic. General health, Eye, Dental check up were done by a team of doctors comprising Dr. Anand Jayakumar, Dr. Gayathri, Dr. Vijay, Dr. Sabarathnavel, Dr. Vijayalshmi, Dr. Asmitha, Dr. Ajith, Dr. Varun, Dr. Sathya, Dr. Maupriya, Dr. Mahalakshmi. Nearly 110 students were screened on that day. We are extremely happy to have Apollo Shine clinic in the college campus.

AWARENESS

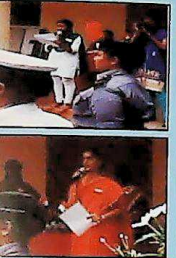

Saplings were planted by the outgoing students on the Hostel Day to enrich the Greenery. An exhibition has been arranged to create awareness about the use of natural resources like solar energy, rain water harvesting, banning plastics and substituting it with paper, coconut shell and bamboo. All the items prepared by students were displayed.

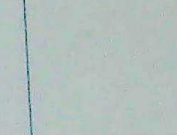

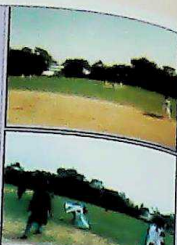

A Hostel is not any random accommodation. It is a place to live and experience, to meet people from other places with a unique environment and atmosphere. Living away from home in a hostel may pose challenges, but it prepares you for the life ahead. It makes you most disciplined and responsible in your approach towards things.

ENTREPRENEURSHIP DEVELOPMENT PROGRAMME

EDP is a programme organized to help the students in strengthening their Entrepreneurial motive and in acquiring skills and capabilities necessary for playing their Entrepreneurial role effectively.

An Entrepreneur is required to respond appropriately to the market and they also required to understand the business needs. EDP is not just a Training Programme but it is a complete process to make the possible transformation of an individual into an Entrepreneur.

With a view to promote Women Entrepreneurship among students and inspire them to establish their own start ups, the "Golden Jubilee Entrepreneurial Development Programme 2K19" was inaugurated on 18.02.2019 at Preview Theatre, Media Block by Dr. Mrs. B.N. Padmaja Priyadarshini, Managing Director, M/S.HomePlanGuru Civil Consultants P. Ltd, In her speech she focussed on "Financing Avenues for Entrepreneurship in India".

This Programme consisted of structured training given by expert teachers in various activities like Embroidery, Jute clutch, sling bag, photo frame, owl mural, Artificial Jewellery, fur bag, bouquet making, artificial flowers, cracted decopage, T-shirt painting, Glass painting, fabric painting and craft using popsicle to 200 students.

PLACEMENT CELL

We have a full-fledged placement cell, which monitors the employment opportunities and arranges campus interviews for the final year students. Placement Assistant and Student Representatives from each department assist the Placement Head by providing all necessary support and coordination activities like collecting resumes from eligible students, informing about various opportunities in getting jobs etc.

The Placement Head follows up through her office and arranges for a campus interview. On confirmation from a company, the placement Head places a circular on the notice board and also sends circular to all departments about the campus interview, the company, their brief profile, their requirements, mode of interview, emoluments expected, date, time and venue of interview.

Our college signed an MOU with Cognizant Technologies Solutions and has been Accredited by TCS.

The placement cell is always on the look out for the employers to place the students at the earliest and to achieve 100% placement in forth coming years.

Globalization opened up job market like never before, and the demand for graduates and Post graduates from Arts & Science Colleges, is increasing day by day. There is no shortage of jobs in the present scenario.

Generally, campus interviews start in the month of August and go upto early March each year. Selection process starts in the morning and ends by the evening with the offer letters being issued to selected candidates.

Every student has special aspirations, dreams and the key to her own future. We at SDNBVC provide a platform to enable them to secure a suitable career in the industry and thus transform their dreams into reality. We thank all the corporate, especially their human resource departments for giving our students an opportunity and assure that they will be an asset to your organization.

Nearly 70% of the students were successfully employed by established organizations & industries. In order to meet the requirements of recruiters, the placement cell prepares the students in all aspects and gives shape to their overall personality. In order to face today's competitive world, the students are in need of good communication and keeping this in mind the placement cell provides with an excellent communication course. Various seminars, workshops & industrial tie-ups are kept in order to build their academic strength. Also training on interviews techniques are provided and we look forward for a colorful success in the for the coming year too.

"It is a great feeling to see our students land a job even while studying. A majority of students at the degree level also do not want to pursue higher studies, but work for which these recruitments are very helpful."

The Placement Cell of this college had already dispatched the college brochures etc. to all the important companies and corporate for exposing possibilities of maximum optimum placement opportunities. We had also made personal visits to the companies on a case to case basis.

Vaishnav Quiz Club was inaugurated on 3rd October, 2018 by Mr. Premkumar Srinivasan, Outreach/Reference Librarian, American Center, U.S Consulate, Chennai. The Chief Guest spoke on reading books, organising monthly quiz- focussing on various subjects, conducting online quiz in the College.

SHOT GUN: GENERAL QUIZ

An Inter-Collegiate Quiz Competition was held on 23rd of January 2019, as a part of SMRTI 2K19. The event was conducted by Mr. VikramRajan, an avid quizzier and a professional quiz master. The competition began around 11.30 a.m. and ended at 1.30 p.m. In all 16 teams from various colleges participated in the preliminary round with two per team, out of which six teams qualified for the finals. The finals had two rounds that included audio visual questions.

The First prize winners were awarded a cash prize of Rs.1500/- each, along with certificates. The Second prize winners were awarded Rs.750/- each with certificates and the Third prize winners were awarded certificates.

Monthly Quiz was conducted regularly on various topics - general politics, sports, fine-arts (audio/visual), general aptitude etc to the Quiz Club members. Based on the performance the winners were declared. The winners were given away prizes by the Principal on 12th March 2019.

Inter- Departmental Quiz competition was held on 12th March, 2019. Students from various departments participated. Questions were asked on variety of topics – Women achievers, proverbs and idioms, logos, connections etc. Based on the Students' performance winners were declared. Principal gave away prizes to the winners of both the Inter-Departmental Quiz and the Monthly Quiz. Students had an interactive session with the Principal and gave feedback about the activities of the Quiz Club.

OBITUARY

Dr. S. Seetha
Assistant professor
PG department of Commerce

S. Seetha was a lovely and lively person to be adored. She was a driving force for her students. Her cheerful contour and optimistic attitude would etch in our mind forever. We miss you Ms. Seetha.

Ms. C. Gandhimathi
Assistant Professor
Department of English

C. Gandhimathi, with the beaming voice, went on to engage and inspire students and colleagues. Her students remember her as a good teacher who taught not only literature and theatre but also greater life lessons that guided them to success. We miss you CG

STUDENTS' CORNER

HER WEeping SOUND

Someone rushed her, she refused
They pushed her to do so
The weeping noise, naive words
Screaming throat, fatigue physique
Searched for an aid, but
All were weak, because
Her voice didn't matter
They didn't feel that, her pain will exuberate
Even, the nearby soul was accountable that time
In the bliss of their pleasure, they silenced her voice
Oh country! Awake, to raise your voice,
One nation for the voiceless,
Young child, woman
Silence
Has to be followed, but
in process
Its values are ample, but
Not yet valued

LIGHT

Ocean is deep and dark down,
The beast is waiting,
That pale grey shark lurking to feast me.
Hovering speckles of dust here and there
hides my love for you.
Pity puny girl, striving to see you.
Oh light! you're there
but these people tie me
with the word FEAR.
Escaping is an art!,
when monster like social animals are surrounded.
Yeah I'm the girl in waters.
My teary eyes wilted.
Tears are the punishment for my eyes.
But my brave heart beats to safeguard
All the fellow finned fishes,
who flap it harder day by day to escape.
Let the freedom light shower soon.

THE ANGEL'S SIN

Dolls, balloons, chocolates
Days were of fantasy!
World seemed pleasant
Unaware of minds deficient of courtesy.
Never understood the sign of beware
Sex! Little soul corrected it "six"
Wicked moron in his casual wear
Eyes full of lust, grabbed the angel with tricks.
Gift of lord, stood in troubling touch
The devil in disguise of man
What sin did she fetch..?!
Except for being a "WOMAN".

IMAGINE

Stopped in the woods like
Pluto in the space and
I don't know what to do
Stepped down the mount, like
Up and above but I
Struck in between the wheels
This is the world of obstacle
So I can't be a mute
This is my world and it's my decision
I can find my way in light.
Quick, breath and reached my goal
Jump up and above
Work, sweat and strive
Don't see the world of fools
Imagine a world of you...

BLOSSOM OF FRIENDSHIP

Oh! Comrade teach me patience,
The hardest thing of all
You pierced my bosom with silence
Ofcourse a lot by why?
Your smile consoles my wail
The words of mine, may dishearten you
But I never pretend, the quarrels grew
You mould far away from me
As far as you can and set me free

Does the sun forget to rise up?
Does the mother forget her child?
The exhalt answer is 'no'
Then how can I do this to you?
Let the whole world turns topsy-turvy,
But I am left over the same for you
The lofty consequences of my affection
I become patience, gracious, courage
And now decisively a poet.

HEAVEN OF LOVE

Girls gathered early from various places,
Curiously for first day of the college
Started with hi and hello, smile in the face
Introduction between the girls of teenage.
In the absence of tutor, the joy of humour
incomparable to any beauty of glamour
In the presence of tutor- notes of derivation
Let lots of confused calculation.
On the college day function, continuous snap
in the perfect location without a gap.
Days of experiments in lab, sometimes
Turned to be fun times.
Friendship is the treasure of God's grace
To weep like a child for the bygone days.

DINNING TABLE

Four seats with well painted new table
Smelling the aroma and hearing
Seeing the colours of all those dishes
Coconut grated curry and fried fishes
Serving them with love and affection
Which created an invisible connection
There was the happiness I cherished
Now I do not want it to be perished
Looking those things in the past,
I cry why did I grow fast
Those family times I had
And its disappearance makes me sad
Although those reminiscence lives on
My dear old dinning table has gone.

DETACHED

There's a distant look in my eyes
When I smile, the smile tries to reach my ocule
Extends its limbs, trees to reach out but in vain
Like a snake sluttering in slippery mud.
There's a distance in my talk
I ensure that my heavy laugh gets trapped
Somewhere in between my heart and my lips
Look down and whisper when I'm being hones.
There's a distance in my walk
I walk upright, unaware of the surrounding
And when I tumble on something or someone
I proceed without an apologetic look
There is a distance between my mind and heart
They cannot co exist, like a couple on break
The mind triumphs, it holds the heart
Under water till it suffocates.
I'm disconnected from my new friends
When I hang out with them, my voice dies out
I retrieve when I realize that
I'm leaning towards them as we walk
Old habits die hard,
Now I make sure that I walk behind.

FAULT

You make heads snap when you walk through the doorway.
Everyone looks at you but I look the other way.
It was to hide the rushing heart on my cheeks,
But now , it is to hide the tear that leaks.
You walk past me, just like yesterday
With no change in your pace, stance or way.
But a relieved sigh has replaces my contented one,
Was it my fault? Oh what have I done?
I wanted to walk down the aisle with you,
But ended up walking on eggshells around you.
Was it my fault to have a dream of fantasy?
Or was it yours for crushing it with no mercy.
Was it your fault for smiling at me?
For wishing me well and taking care of me?
Or was it mine for staring too long?
For yearning your warmth and wanting to belong?
Tell me. Was it yours? Or mine?

STREAM OF WORDS

Murmur, stream of words in dark
Cause of loneliness
When looked at the sky
It conversed that I'm there
Night universe deeply elaborates
You completely belong to me
Smile of stars, pamper of darknight
Affection of moon
Made me pleasant, falling star
Took away the loneliness
Expressed, the comfortable to you
Built by the creator
Make comfortable on his arms
He stands besides me always.

OUR JAWANS

You spend sleepless nights,
While we sleep here peacefully.
You leave your homes,
So that we can leave our homes.
The Lord prayed "forgive your trespassers",
But you don't forgive your trespassers.
Be fast you react,
Which is a real fact.
Your mothers have dedicated to scarfice their sons,
To fight the terrorists guns.
With you lies the country's integrity,
Which will never forget for eternity.
And will definitely, certainly,
Like the terrorists zero,
And hail you as our hero.

Hey mankind!
How brutal you've become
Oh I fear what are the days yet to come?
Stone hearted ye.
thou aren't yet though by nature
'Men are great'
-this is what is there in every literature.
No passion, no compassion, no warm blood
Thou has become cannibal that not spare ever the dead
Thou respect no animal nor your co-being
You even not give up your lust upon
SHE baby crying?

Hey humankind!
You are no more humane
No moral, no tolerance, no love, no humanity
Ye now lead a life full of vanity...

Don't lead a superficial life!
Life is meant to be lived
Life is meant to be enjoyed.
Life is meant to be felt thankful for...
Feel blessed! Stay blessed!

BE UNIQUE

Just an imagination
If God speaks to me, I will say him that
If roses grow in heaven
Lord, please pick a bunch for me
Place them in my mother's hand
And tell her, they are from me
Tell her that I love her and miles her
And when she turns to smile
Place a kiss upon her cheek
And hold her for a while
Because remembering her is easy
I do it every day, every minute
But there's an ache within my heart
That will never go away.

QUOTES FOR LIFE

Life is a train with chain of happy and sad moments.
Each ones alarm is their hope to achieve their dreams.
Loneliness is a boon which gains you self confidence.
Growing up is all about to endure when obstacles hit us.
The stage is ready always for all those who deserve the best and enthusiastic audience . This is not the end. It's a beginning of the new twist.
2 minute recipe for a happy life:
Be calm and innovative in spreading happiness.
The most precious thing is our mother's love after having an argument with her.
This isn't the end. The end is at your goal.
A person who knows to earn happiness will be ready to sacrifice their happiness.
Sometimes you just have to accept the hurting from your loved ones to make them feel regret.
It was never about having knowledge. It was all about using it.
Life is the most colourful when you find the right colour (talent) in yourself.
Don't wait for the door to open. Knock and rock with your strength of mind.
When I think of sea, I try to hide my anger like these waves which touches the shore and goes back...

MY IDENTITY

I was born into this brand universe as a living being with blood, flesh, bones and common sense making me one among the species called homo sapiens. And moreover with a pair of ovaries I was termed a woman."you are my precious little laughter" is what my father used to say everyday making me feel quite blessed about myself.

But the day when I heard him state that he would prefer to end his parental duties as a responsible father by gifting me into good hands, I had the horror of my life. Till that moment I thought that I was a woman who was a human, who had emotions and the journey called life, but only to realize in vain that I was a mere object, a thing that was modelled right from the tender age to be handled over into another hand. I knew that I did not possess anything if my own. My identity even is a big question , as once I belonged to a family that I presumed as mine, but now I know that I had to be handled over to some other family, where I will have to seek my identity.

Light from the tender age crawling to the rotten age of nearing death, a woman plays a cardinal role that is inexplicable. In her is bound the prime source of life called birth, then why consider her as a object. Why insult her and discard her away. The more the more man thrashes woman, he insults his own kind as he finds his identity lost in a mother, daughter and wife. For know I know that I am not a thing to be sold or brought but a soul to be represented because my identity is that I am a woman who is fearless and ceaseless.

FADING MASK

Friendship is not a blessing that's
Starving for honesty
Thousand words by others became pointless,
an action by you, behind me.
By teaching you the lesson to treat enemies
You taught me on the "MASK"
Tears roll on, not for the backstab
But for the memories
Never fear for the enemy, attacks you
Fear for the fate friend,hugs you.
Never the people change but the
Mask falls off.
Never react to the craftiness-
Here comes the polished term of
Memory loss - "Forgiveness".
It's better to shrug off and more on
Above words, companion of tears are not
Just expression of pain but
Remainder for next start

MATHS AND LIFE – A COMPARISON

"Mathematics may not teach us how to add love or minus hate.
But it gives us every reason to hope that every problem has a solution."

Maths and life have many things in common.

Firstly,
Infinity means something which has no end. Similarly, man's dream has no end until his zeal for it fades.
Life can also be compared to a number line.
Number line consists of negative and positive numbers similarly life too has ups and downs. The forward movement in number line is towards the positive side. This fact has a very deep message in it. Yes forward leap in life is possible when we are optimistic. Negative thoughts tend to demoralize our progress.

Problem solving in maths also teaches yet another life lesson – perseverance.

Maths problems cannot be solves in haste.
In life too we must not loose our patience at any cost.
Remember, perseverance is a power is a disguise.
Last but not the least, we can compare the entire life to a maths problem.

Sometimes the question seem to be complicated but the answers are too simple.

In a similar fashion lets solve the complex problems of life by searching for simple solution with passion.

WITH NEVER LOVING LOVE FOR MATHS

TIPS TO KEEP IN MIND WHILE ONE IS ACTIVE ON SOCIAL NETWORKING SITES

"Internet is the heart of the youngsters of this generation and social networking sites are no exception. Social networking site helps youngsters connect with people around the world, share pictures and information easily. One must never get deceived by all these fancy advantages since there are also many disadvantages that tag along with its uses. Through this article we list out some effective tips that one should keep in mind while he/she is active on social networking site.

- One should be sensible enough to choose whether it is essential to be part of too many social networking sites. Being active in many social networking sites is not advisable and is not necessary too.
- One should be very cautious about confessing personal details to strangers and must strictly refrain from sharing mobile numbers or residential addresses to strangers.
- One must change his/her passwords at regular intervals since hacking is increasing at a highly alarming rate.
- One should try to refrain from clicking on unwanted advertisements or messages that will deceive the user through its attractive content as they might contain bugs or viruses.
- One should also stop leaking too much of personal information by posting it on social media. Posting status on all the day to day events that occur on his/her life is highly risky since strangers can easily get access to all personal details about users easily.
- Above all these, one must take ample time to read the privacy policies of the respective social networking site to prevent oneself from all unwanted problems like hacking or other major issues

CALL FOR CULTURE

Tamil culture cannot be paralleled with any other culture. Culture is the only norm which makes Tamil people to stand unique from other. Culture cannot be adopted, it has to be oneself. Only Tamil culture has the pride of being born with each and every Tamil people. Not all cultures are contagious but Tamil is. We live in the period where non-Tamil people are emotionally attached to Tamil culture. It makes the life span of Tamil culture, but without knowing the tradition and purpose of it. This makes Tamilians to stop back from non-Tamilian, when it comes to culture. The pathetic situation is that our own culture is taught to our people with a foreign brand. Starting from the mark (bindhi) on forehead to the coin in the cadaves, everything is culture, everything has scientific reason. Does any culture has the pride of owing a funeral to the cattles? What more is needed to shed love? For the people in Tamil Nadu, culture is not a norm or rule, it is the pulse and blood. Knowingly or unknowingly people live along with it. Unfortunately, culture has become quite distant but never gone. Time has come to welcome back our pride.

LONELINESS

The night is serene,
But something is busting inside me.
Beam from the moon glitters like a silver sword
And chill breeze quivers me
Passing clouds tells me something
"nothing is permanent", one is replaced by another
Though I am not sleeping in solitude
I feel the loneliness
I could see the moon through the window
Which is far away from me reminds me,
'it is far but I could see it and feel it'
I am too far from my own land and people
Still I fed them and see them,
Like the moon's rays that reaches me
Though it is distant
The love and care for me reaches me
Like those rays or waves.
Sometimes I could see them and feel them.
This serene night makes me feel alone
Stillness provokes my thoughts
And jumbled with agitation but
My loneliness brings me the solution.
Being alone is sometimes good, but
Being solitude is evil.
I learned who I am
My loneliness thought me how to hide my pains
This night which is like passing clouds
Couldn't make me afraid,
Because the dawn has come
The warmth gives me strength to move on.

BEAUTIFY THE GIFTED LIFE!!

Life progress flipping its tail,
To reach the sphere of energy.
Struggle for existence,
Survival of the fittest.
Made the days SECURED!!!

Bounded in womb,
Darkness fell around.
Rejoicing the voices of care,
Made the days DIVINE!!!

Initiated organ's moves,
Delivered giving her pain.
Tearing the vocal cried aloud,
Tried console her pain.
Made the days EMOTIONAL!!!

The Drops of milk,
Ready to refill,
The starving small stomach.
Made the days CONTENTED!!!

Every heart repeated,
A constant name and
Cheered with their funny sounds,
Made the days HAPPY!!!

Stepped in school,
teachers served to procure skills.
Thoughts provoke,
helped improving intellect
Made the day KNOWLEDGES!!!

Surrounded with friends,
sharing common interests and funds.
Energetic tempo all around,
Made the day JOYFUL!!!

Touched the teen,
Confused by its mean,
Trying to realize it deep,
Made the days EXCITING!!!

Entering the college,
Extended the freedom.
Explored the power within,
to help the needy.
Made the days BLISSFUL!!!

Tasting the bliss,
Led in search of holly spirit,
Understanding it,
Made the days THANKFUL!!!

Many feelings to explore ahead!
Until now gained an energy to,
make the present DAYS BEAUTIFUL!!!

DAYS becomes BEAUTIFUL,
once we start respecting,
Other's Individuality.
Think We!!

By then we will enjoy a world,
Which loves us!!!

The love will,
Bring a smile each second.
Which rejuvenate your cells,
To keep you,
as a safe, gift of the universe!!!

MOM

Mama you have carried me in your womb for nine months
You have love for me in tons
You are always there for me since I opened my eyes
Mom, you are really nice.

What food I like and what I don't, you know
You are always there for me in good times and in bad
When I don't get sleep at night, you let me sleep in your lap

At times when I feel anxious or uncomfortable
When I tell you everything I feel normal
You are always there to hold my hand
I have never felt alone because I know beside me you will always stand

During board exam when I studied at night
You were the one who didn't sleep, till I complete and turn off the light.
Mama never leave me alone, because
You are the one who give me comfort and warmth

Without you, your child is a useless worm.
Mama you are the best gift of God, I don't know
What to say, but to me you mean a lot
You are my Idol, you are my everything
Woman like you, I have never seen
I am a strong princess, because I was raised by a legendary queen.

THE STORY OF VIRTUE AND SIN

Creation of humankind came
With virtue and sin
Both being omnipresent, Indestructible
And with it began a battle
Virtue lit up the dark, treacherous path of life
And sin formed the foggy mist
When the ghost of greed closes a person's eyes
Virtue tried to knock it off, her strength failed her
She no longer existed in the minds of her people
Those who knew her, locked her up
In the deepest, darkest vaults at the depths
Of the bottomless sea of desire
The immense weight of shame, guilt, anger-
piling up
We think she's free now...
We think we're free now...
It's the intoxicating sweetness and tantalizing
fragrance
A fake promise to let you forget everything
It's the call of a siren
Luring you into a trance
Where you willingly head towards your doom
Reducing even the strongest of all
To ashes
Sin ruled where virtue was forgotten
In the battle between virtue and sin,
Neither could be destroyed forever
Is it greed that blinds?
Or is it you who ties a blindfold
To forget the morbid, grotesque
Spectre behind the sweetness?

WILL THE MOON BE BEAUTIFUL?

If my word are carried
By the doves,
If my touches relayed
By the winds of love,
If my glances were reflected
By the waters of the world,
If my redolence is conveyed
By sweet roses
Then when I meet you
Will the moon be beautiful?

IMAGINE INDIA WITHOUT TB

Tuberculosis (or) TB is a potentially infectious diseases caused by the Mycobacterium Tuberculosis. Compared with other diseases caused by a single infectious agent, tuberculosis is the second biggest killer, globally.

How TB spreads?

TB can affect any organs in the body except hair, nails and teeth. Most common organ involved in the Lungs. The bacteria spreads through the air from person to person. Mainly, by cough, the bacteria spreads as droplets in air and infects another person. This disease producing in a person is called as Active Tuberculosis(ATB). When a person is infected with TB but doesn't have active TB is called as Pulmonary Tuberculosis(PTB), whereas it affects other organs other than lungs is called as Extrapulmonary Tuberculosis(EPTB).TB disease affecting more than one organ is called as Disseminated Tuberculosis.

Symptoms and Stages

To identify TB in a person, the symptoms are cough, weight loss, loss of appetite and fever. The stages of TB are Early and Advanced. In Early stage, the patient will suffer unusual fatigue, fever, weight loss, headache, coughing and irritability. An infected child may have night sweats and cough up blood. In Advanced stages, the patient will suffer persistent coughing, breathlessness and fever. Smokers and Alcoholics have higher risk of developing TB disease.

India is the country with the highest burden of TB and world's largest TB epidemic. The World Health Organisation(WHO) states that TB statistics in India for 2016 is 2.76 million cases of active TB diseases and in 2017, more than 10 million cases and 1.6 million deaths because of this disease. Mostly women from age 15 to 44 die per year. There are million cases per year in India who are affected due to TB. 80 percentage cases are related to pulmonary or lung TB.

Prevention and Remedies

- ___ If the person is suffering from cough, fever more than one week, it's better to consult a doctor
- ___ Take a Mantoux Test that helps to confirm TB
- ___ Take adequate diet and rest
- ___ Avoid stress
- ___ if TB patient is diabetics, he or she should keep blood sugar levels under control
- ___ TB patient suffering from a long time can wear masks to prevent infecting others.

BILINGUALISM: A GATEWAY TO VAST KNOWLEDGE

"The limits of my language mean the limits of my world."-Ludwig Wittgenstein, philosopher

Language impacts the daily lives of members of any race, and region of the world. Language helps express our feelings, desires, and queries to the world around us. Words, gestures and tone are utilized in union to portray a broad spectrum of emotion. The unique and diverse methods human beings can use to communicate through written and spoken language is a large part of what allows to harness our innate ability to form lasting bonds with one another; separating mankind from the rest of the animal kingdom.

Speaking two languages rather than just one has obvious practical benefits in an increasingly globalized world. But in recent years, scientists have begun to show the advantages of bilingualism are even more fundamental than being able to converse with a wider range of people. Being bilingual, it turns out, makes you smarter. It can have profound effect on your brain, improving cognitive skills not related to language and even shielding against dementia in old age.

This view of bilingualism is remarkably different from the understanding of bilingualism through much of the 20th century. Researchers, educators and policy makers long considered a second language to be an interference, cognitively speaking, that hindered a child's academic and intellectual development.

The ability to communicate in multiple languages is becoming more and more important in the increasingly integrated global business community. Communicating directly with new clients and companies in their native language is one of the first steps to founding a lasting, stable international business relationship. Being able to do this automatically puts any multilingual person miles ahead of his or her peers in the competition for jobs and high-prestigious positions. Language is such a key aspect to setting up children for success in their future professional endeavours that high schools across the nation and in almost every Western country require at least two years of a foreign language. Most institutions offer opportunities to learn a foreign language at even earlier ages. In recent years, psychologists such as Agnes Kovacs have studied the intelligence and mental capacity of young bilingual children in comparison to monolingual children. The author states, "The collective evidence from a number of such studies suggests that the bilingual experience improves the brain's so-called executive function – a command system that directs the attention processes that we use for planning, solving problems and performing various other mentally demanding tasks." Furthermore, by instilling a reverence for foreign language at a young age, parents put their children miles ahead of their future competitors.

Many people believe that bilinguals have an advantage over monolinguals on tasks that require executive control. "Executive control" is a term used by psychological scientists to refer to the management and regulation of specific cognitive processes like working memory and task-switching (shifting attention from one task to another).

Belief in the so-called bilingual advantage (BA) is based on a large number of scientific studies. These studies have repeatedly demonstrated that bilinguals, as a group, perform better than monolinguals on tasks that involve task-switching or inhibitory control

There is ample evidence that, in a bilingual's brain both language systems are active even when he is using only one language, thus creating situations in which one system obstructs the other. But this interference, researchers are finding out, isn't so much a handicap as a blessing in disguise. It forces the brain to resolve internal conflict, giving the mind a workout the cognitive muscles.

Bilinguals, for instance, seem to be more adept than monolinguals at solving certain kinds of mental puzzles.

Learning has no end in this wide world of knowledge, by knowing different language it paves the path to access many details, facts from many different language. The world has vast variety of cultural diversity and language diversity which gives a wide range of knowledge to the mankind. Accessing them through knowing different languages paves gates for tolerance among people, understanding the different culture of the people and it will help in global integrity and personal development.

SELF-LOVE: A DYNAMIC PRACTICE

Do you find it hard to accept a compliment? Do you use negative words like ugly, fat, stupid etc. to describe yourself? Do you feel like your 'self-talk' is rather unconstructive? To get rid of these manacles of low self-esteem, the only way out is to practise self-love.

The Self-Esteem Book written by Dr. Joe Rubino claims that 85% of the world's population are affected by low self-esteem. A worldwide research supervised by the World Health Organisation (WHO) reports that more deaths are caused by low self-esteem induced suicide than homicide or war. Self-love empowers you to view the world in a different light with more beautiful and positive colours and to win over mental illness. It also bestows you self-confidence and self-worth which are absolutely essential to live a blissful life.

The talks about self-love often concern and connect the words, 'you' and 'yourself'. Loving yourself is indispensable. It is to be mastered through consistent practise, patience and without expectations. There is platitude- You cannot love someone else if you don't love yourself. The true meaning conveyed by the saying is often misinterpreted and eventually the sense is totally lost. You do not practise self-love to love others. You DO IT FOR YOURSELF.

Accepting yourself forms the foundation for self-love. "Maybe I made a mistake yesterday, but yesterday's me is still me. I am who I am today, with all my faults. Tomorrow I might be a tiny bit wiser, and that is me too. Those faults and mistakes are what I am, making up the brightest stars in the constellation of my life. I have come to love myself for who I was, who I am, and who I hope to become" remarks Kim Namjoon, leader of the famous Korean septet BTS, at the launch of Generation Unlimited at the UN General Assembly.

Stop busying yourself by focussing too much on the people around you and comparing yourself to them. You are unique with different flaws. Nobody is flawless and human race is nowhere near perfection. Learn to enjoy your company, forgive yourself, surprise yourself, give yourself a break occasionally, learn how to say 'No' to others, challenge yourself, credit yourself for your accomplishments, and exercise self-care and self-trust.

Loving yourself is not easy, neither it is hard. Because nobody has ever really discovered a certain way to love yourself, do it in your way. Accept your flaws. Embrace yourself. And speak for yourself.

"I'm the one I should love in this word,
Shining within is the precious soul of mine;

I finally realised, so I love me,
Not so perfect but so beautiful;

I'm the one I should love."

பழகிய நெஞ்சங்கள்
பிரிகின்ற நேரங்கள்
எண்ணத்தில் நெஞ்சத்தில்
எண்ணற்ற பாரங்கள்.

நான்கு மணி நேரம்
வீட்டை விட்டுப் பிரிந்தோம்!
நண்பர் கூட்டம் கை கொடுக்க
வருந்தும் நெஞ்சம் சிரித்தோம்.

சில நேரம் படிப்பு
பல நேரம் இன்பம்
அழகான சின்னச் சின்ன சண்டை
சண்டைகள் முடிந்து
மீண்டும் மீண்டும் சேர்கையில்
எங்கள் நட்பின் உறவை
இறுக்கமாக்கினோம்.

கரும்பான நட்பு
குறும்பான காலம்
கலங்காத நினைவு..
சுமைகள் மறைந்து
சுகங்கள் தோன்றும்

நட்பின் கண்ணில்
கலங்கும் கண்ணீர்...

சந்தித்த இடங்கள்
நடந்திட்ட தடங்கள்
சுவடாய் அமையும்
எதிர்காலத்தில்..

புகைப்படமும் கையெழுத்தும்
நீங்காத இடம் பிடிக்கும்
புத்தகத்தில் மட்டுமல்ல
எங்கள் நெஞ்சத்திலும்...

கல்லான நெஞ்சமும்
கண்ணீர் கசியும்
பிரிவான நேரம்...!

என்றாவதொருநாள் நண்பனை
எதிர்காண..

கேட்ட குரலோ! என் நெஞ்சம் வழி
காண...

நண்பனை! என் உள்ளம் உறவாடக்
கண்டு பேசி சில நேரங்கள் பின்னர்
மீண்டும் அவரவர் பாதையில்..

இக்காலம் இனி என்று வருமோ? என

சொல்லின் வலிமை

குழந்தையைக் இருக்கும் போது நம் தாய் நமக்குப் பேசுவதற்குக் கற்றுத் தருகின்றார். அம்மா, அப்பா என்று ஆரம்பித்து குழந்தையும் மழலைச் சொல்லில் அழகாகப் பேசத் துவங்குகின்றது. குழந்தையின் மழலைச் சொல்லினைக் கேட்டு அனைவரும் ரசிக்கின்றனர். இவ்வாறு பேசத் துவங்கும் மனிதர்களாகிய நாம் வயதான பின்பு அர்த்தங்களை அறிந்து பேசத் துவங்குகிறோம். நாம் பேசும் ஒவ்வொரு வார்த்தைகளிலும் உள்ள அர்த்தங்களை உள்வாங்கிய பின்பு தான் பேசத் தொடங்கவேண்டும். ஒரு சொல்லின் வலிமை என்பது நாம் பேசுவதைப் பொறுத்தே உள்ளது. ஒருவன் தன் மன வலிமையை இழந்து தவிக்கும்போது அவனிடம் சென்று ஆறுதலாகவும், தன்னம்பிக்கை அளிக்கும் வகையிலும் பேசும் சொல்லின் வலிமை, அவனை வெற்றி பெறச்செய்யும். அதைப் போலவே பேசும் சொல்லில் தன்னம்பிக்கையும், அன்பும் கலந்திருக்க வேண்டும். நாம் பேசும் வார்த்தைகளைச் சரியாகக் கையாளவில்லை என்றால் அது நமக்குப் பேராபத்தை விளைவிப்பதாக இருக்கும். **சிலப்பதிகாரத்தில்**, பாண்டிய மன்னன் காவலர்களிடம் கோவலனைக் **'கொண்டு வாருங்கள்'** என்று கூறினான் என்றும் அது காவலர்களால் தவறாகக் **'கொன்று வாருங்கள்'** என்று புரிந்து கொண்டதாகவும் புராணங்கள் உரைக்கின்றன. நாம் சொல்லும் சொல் தெளிவானதாகவும், மற்றவர்க்குப் புரியும் வகையிலும் அமைதல் சிறப்பாகும்.

**தீயினாற் சுட்டபுண் உள்ளாரும் ஆறாதே
நாவினாற் சுட்ட வடு**

தீயினால் நமக்கு ஏற்பட்ட காயம் வெளியே புண்ணாகத் தோன்றினாலும் உள்ளே வலியானது ஆறிவிடும். ஆனால் ஒரு தீய சொல்லால் பிறர் நம் மனதைக் காயப்படுத்தினால் அது நெஞ்சில் ஆறாத வடுவாக மாறும். எனவே சொல்லின் வலிமையை உணர்ந்து செயல்பட்டு உயர்வோம்!

देश के प्रति प्यार

हमें अपने देश के प्रति अगर प्यार नहीं है, उसके हित पर सब कुछ न्योछावर करने की भावना नहीं है तो हमारा जीवन व्यर्थ है, हमारा हृदय पत्थर है। जन्म-भूमि, मातृ-भूमि की तो बात ही न्यारी है। जिसकी मिट्टी से हमारा शरीर बना है, जिसके अन्न जल से हमारा पोषण हुआ है, उस मातृ-भूमि का ऋण हम एक बार तो क्या अगर सौ बार हम मर जाए तो भी नहीं चुका सकते।

“जिस हृदय में भाव नहीं
जिस हृदय में बहती रसधार नहीं
वह हृदय नहीं पत्थर है
जिस में देश के प्रति प्यार नहीं ”

देश भक्ति के उचित विकास के लिए यह आवश्यक है कि हम देश की महान परंपराओं को समझे, उसके वैभव के दर्शन करें। देश भक्ति कोई अंधविश्वास, काल्पनिक बात या ऊपर थोपी गई भावना नहीं है। यह तो हृदय का स्वाभाविक भाव या प्रवाह है। जिस प्रकार पुत्र अपनी माता की रक्षा करता है, उसके मान-समान का ध्यान रखता है, उसी प्रकार प्रत्येक देशवासी का प्रमुख कर्तव्य है कि वे अपने देश की रक्षा, सुख-समृद्धि और विकास में अपना पूरा-पूरा सहयोग दें।

सच्ची देश भक्ति वही है जो संकट काल में अपना तन, मन, धन और सर्वस्व देश के हित में अर्पण कर दें। जैसे हमें अपना देश प्यारा है, उसी प्रकार औरों को भी अपने देश के प्रति प्यार है। अगर कोई हमारे देश की स्वतंत्रता में बाधा डालता है तो हमें बुरा लगता है, उसी प्रकार हमें भी किसी की स्वतंत्रता में बाधा नहीं डालना चाहिए। इसलिए देश-प्रेम का अर्थ दूसरे स्वतंत्र देशों से ईर्ष्या करना नहीं है। अपने देश को प्रेम करते हुए विश्व-प्रेम और मानवता की चरम सीमा तक ऊपर उठें, यही होता सच्चे देश-प्रेम की भावना है।

तृप्ति

प्यासा ही गायन कर सकता है
तृप्ति तो चुप हो जाती है
जो इच्छा नहीं मानव में तो
सब शक्ति घुप हो जाती है।

जो तृप्त है उसे जीवन से क्या
वह तृप्ति का भोग लगाता है
प्यासा ही अश्रुधारा से
आँखों को धुलता जाता है।

इच्छाओं के ही बल बूते
मानव ने यह राज सजाया है
अपनी इच्छा के कारण ही
चन्दा पर हो कर आया है।

इच्छाएँ कब मरती हैं
वह तो बस बढ़ती जाती है
हर इच्छा की पूर्ति के संग
एक नई इच्छा आ जाती है।

यह तो अनबूझ पहेली है
क्यों मिट न सकी अंतर ज्वाला
अब भी इच्छाओं के पीछे
क्यों फिरता है मानव मतवाला।

कॉलेज के यादगार दिन

स्कूल की बाधाओं को पार करके,
राह देखी थी एक दिन की कब से
आगे के सपने सजा रखे थे ना जाने कब से !!!

नए नए से आये थे SDNB College में
एक दूसरे से थे अनजान.....
खुलकर मिलने में भी हम सब थोड़ा सकुचाते थे।

नाम पूछते बतलाते थे।
फिर थोड़ा सा मुस्काते थे।
निश्चल कोमल मन से,
अपने भाव जगाते थे।

सुबह सुबह उठकर
बचकियाते हुए,
कॉलेज को दूर से पहुँचते, तो
डॉट सी लगाते जैसे
कोई अपराध हम से हुई।

कुछ का नाम बिगाड़ा।
कुछ की मौज उड़ाई।
दोस्त के जन्म दिन पर,
उसे लातों से मारने पर भी दावत उड़ाई।

क्लास में कभी-कभी तो हम
खरीटे खूब लगाते थे।
पर, ज्ञान की बातें, सहित्य और भाषा सीखकर,
मन ही मन हर्षाते थे।

NCC और NSS के फंडे,
CULTURAL FEST के झंडे,
ना थी कोई परिक्षा ना ही काम,
आते थे मजे तब कॉलेज के दिन।

हँसी- ठिठोली

एक दिन रामू के टीचर रामू के घर आनेवाले थे क्योंकि
रामू स्कूल में बहुत उधम मचाता है और सारे अध्यापकों
की खिल्ली उड़ाता है,

टीचर: रामू में तुम्हारे घर आऊँगा।

रामू: जी टीचर घर जरूर आइएगा।

टीचर रामू के घर पहुँचे।

टीचर: रामू तुम्हारे पापा कहाँ हैं ?

रामू: कुछ समय पहले ही मर गए...

टीचर: कैसे?

रामू: असल में पापा योग कर रहे थे..

टीचर: तो क्या योग करने समय दिल का दौरा आया?

मतभेद कभी जो बढ़ गए,
खुद ही सुलझाते थे।
एकदूजे से घुलमिल
माहौल को मस्त बनाते थे।

हर असाइन्मेंट छाप-छापकर
अपना जानबढ़ाया था ?
और कुछ आया ना आया
नकल करने की कला में निपुणता पाया।

परीक्षा निकट आने पर,
खुद को रात रात जगाया था।
समझ नहीं आने पर -
'मुझे पढ़ा दे' का नारा भी खूब लगाया था।

जब प्लेसमेंट टाइम आया,
अपने टैशन को संग में लाया।
कड़ियों की लग गयी थी।
कड़ियों की लगने वाली थी।
खेलते-खिलाते, हँसते-हँसाते
पढ़ते-पढ़ाते.....

ये मौज मस्ती की जिन्दगी
फिर ना कभी आयेंगी
तीन बरस जीवन के ये
सबसे सुखमय कहलाएंगे
प्रण लेकर जो आये थे
कि जल्द ही छुटकारा पायेंगे कॉलेज से
पर आँखें नम हो गईं
जब तीन बरस की यादों को
अलविदा कहने का समय आया है..

बहुत याद आयेंगे ये पल
जो ना आये अब दुबारा
इन्हीं कॉलेज की यादों से
बीत जाये जिन्दगी दोबारा.....(2)

KĀLIDĀSA

Mahakavi kālidāsa was a classical sanskrit writer, widely regarded as the greatest poet and dramatist in the sanskrit language of India. According to the celebrated theory of the different debts (the Rnas), every student of sanskrit owes a debt of gratitude to kālidāsa. It is obvious that the debt can never be adequately repaid. kālidāsa is an eternal pleasure, a joy forever. He is called as ĪSVARA KRṢṢNA. KĀLIDĀSA, is indeed very significant for it clearly suggests to us that he is not merely a philosopher, but a thinker, a poet and an artist. This distinguishes him from the rest of the poets and is also the cause of his greatness.

His great works are Ṛtusamhara, Mālavikāgnimitra, Kumārāsambhava, Vikramorvaṣiya, Raghuvamśā, Meghadūta and Abhijñānaśākuntala (chronology order). Out of these Mālavikāgnimitra, vikramorvaṣiya and Abhijñānaśākuntala are his plays, the rest of them are his poetry. In his three plays the poet tries to depict love in its three fold aspects as it arises in a human being. the love of art and the formal beauty (Mālavikāgnimitra), the love of beauty and the wonderful (Vikramorvaṣiya) and finally the love of the soul and the spiritual love (Abhijñānaśākuntalam)

For Mālavikāgnimitra, he is under the influence of Natyasastra. The play proceeds through the schemes of Vidusaka who is on that account of much importance in the play and who is further drawn according to the dictates of natyasastra. It is true that he even speaks about knowledge and proficiency in the stage performance. It is a drama which describes the love of the king Agnimitra for seventeen year old girl dancer (Malavika). For Vikramorvaṣiya, instead of history kālidāsa now turns to mythology for his plot and decides to deal with the age old love story of pururavas – Urvashi, the story of human love for the divine dancer.

The Abhijñānaśākuntala, undoubtedly is the master piece of kālidāsa. The west also recognises it as a masterpiece as the introduction is given through Sir William Jones and appreciation by Goethe and Tagore, the west knows kālidāsa through this play. For the story kālidāsa goes to the Mahabharata and picks up a very crude and rough story giving an account of woodland armour of a selfish king and a shrewd practical forest girl. The plot of the play is shakunthala, the daughter of the sage vishwamitra and menaka, but is brought up by the Sage kanva and stays with him in a forest dwelling. She meets king Dushyanta when he comes there for a hunt, eventually the fall in love and the story goes in its way. Their love brings us on journey that makes us laugh, cry tears of mirth and sorrow, even blows us away by some beautiful imagery. The problem of human suffering is clearly spoken in this play.

“अनुभवति हि मूर्ध्ना पादपस्तीत्रमुष्णं ।
शमयति परितापं छायाया संश्रितानाम् ॥”

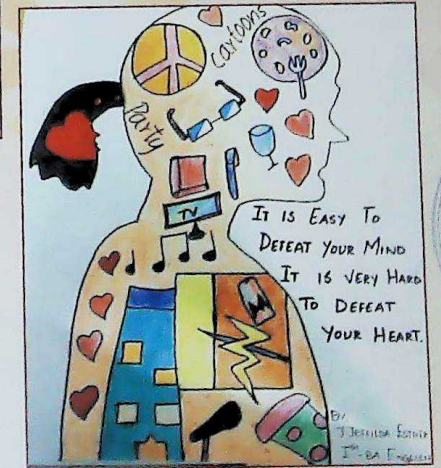

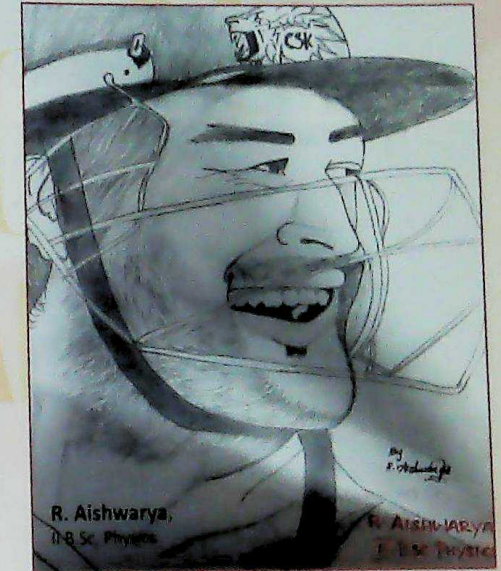

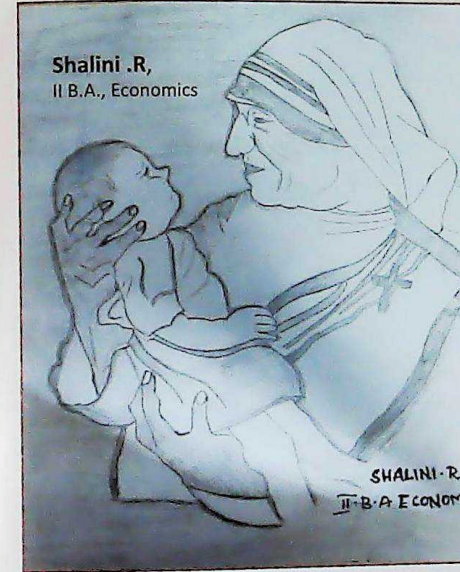

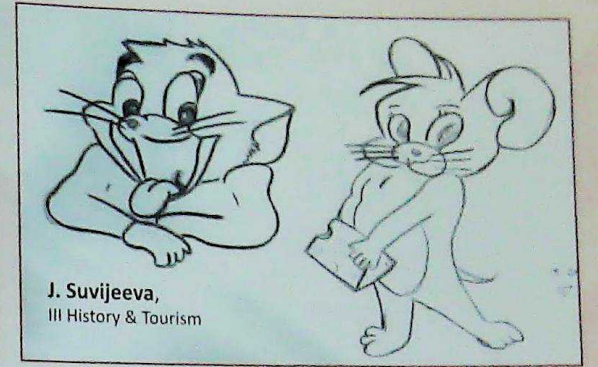

Meaning : The tree bears the intense heat on its head while it lessens the heat for those who take shelter under it.

Speaking of his poetry Ṛtusamhara, for truly it is nothing but a sort of collection of personal notes of a poet observing nature with a keen and romantic eye. Love of nature is the predominant element in kālidāsa which constantly tries to seek fusion with the other two elements philosophy and art. The form of this poem is a collection of six lyrics of love sung by a lover to the beloved. It describes the effects of season on man, women, animals and on nature in the form of creepers, flowers, rivers and forests. Of all the seasons (vasanta (any season) has a beauty of its own, satisfying all the five senses of man at the same time hence senses kālidāsa loves it in the extreme. next comes the vasanta (spring season) with its new life, the season of charming mango blossom and its sweet music of the bees. Similarly he describes every season. The Ṛtusamhara, then is to be looked upon as the personal notebook of the poet where he jots down the beauties of nature that strikes him.

For Raghuvamsha, kālidāsa deliberately chose the vamsa form as well as the dynasty of the Raghu kings as his new theme. Aesthetically the Raghuvamśā represents the poet's approach to tragic, thus it will be seen that the poet is more engaged in giving expression to his thought rather than the formal beauty which seemed to engage his attention for the first period.

“हेमन्तः संतप्यते ह्यग्नौ विशुद्धिः श्यामिकाऽपि वा ।”

Meaning : the purity of the gold can be tested only when it is put through the fire. (Raghuvamśā)
